HIGH COURT NOTICE.

THE following rules having been framed by the High Court of Judicature at Fort William in Bengal in the exercise of the powers vested in it by the Statute 24 and 25 Vic. Cap. 104, section 15, and sanctioned by the Governor-General in Council, are published for general information.

By order of the High Court,
R. L. ROSS,
Registrar.

HIGH COURT
(CIVIL),
The 7th September 1910.

Insert the following after rule 8, Chapter VI, page 132 of the High Court's General Rules and Circular Orders, Civil :—

8A. Rules for regulating the travelling and other expenses of persons summoned as witnesses in Civil Courts in the Province of Bengal.

1. For the purpose of computing the expenses which a party applying for a summons shall be required to deposit in Court, witnesses shall be divided into three classes, namely :—

(a) labourers of the poorer class ;
(b) cultivators, artizans, petty traders and others in a similar condition of life ; and
(c) persons of better position :

and the allowance shall ordinarily be a diet allowance.

2. Such allowance shall be calculated for each class at daily rates within, and never exceeding, the maximum limit specified below opposite the territorial description of the Court in which the witness appears :—

	Class (*a*).	Class (*b*).	Class (*c*).
I.—Court in the district of Darjeeling, the 24-Parganas or Howrah.	6 annas *per diem.*	10 annas *per diem.*	Rs. 5 *per diem.*
II.—Court in the Presidency, Burdwan or Orissa Division (with the exception of the districts of the 24-Parganas, Howrah and Sambalpur) or in the district of Purnea.	4 annas *per diem.*	8 annas *per diem.*	Rs. 5 *per diem.*
III.—Court elsewhere	3 annas *per diem.*	6 annas *per diem.*	Rs. 5 *per diem.*

Explanation.—The rates fixed in this rule are maxima and are intended to meet the cost of one day's meals. In every case, therefore, the Court should consider the circumstances of the individual and the local conditions, and permit the deposit of a reduced allowance in circumstances and localities where the actual expenses fall short of the maximum rates.

3. In the case of a witness residing at a distance from the Court, if the journey cannot be performed on foot, or the age and habits of life of the witness render it impossible for him to walk, in addition to the prescribed diet allowance, travelling allowance should be deposited in Court at the rates given below:—

(*a*) Where the journey is by road, the actual charge for reasonable conveyance shall be allowed up to a maximum limit of 4 annas a mile.

(b) Where the journey is wholly, or partly, by rail or steamer, the allowance shall be—
(i) in the case of any such person as is described in clause (a) or clause (b) of rule 1, third-class railway or steamer fare;
(ii) in the case of any such person as is described in clause (c) of rule 1, second-class, railway or steamer fare:

Provided that the Court may, in its discretion, direct the deposit of first-class railway or steamer fare either where no second-class accommodation is provided on the railway or steamer by which the person has to travel, or when the Court considers that first-class railway or steamer fare should be paid.

4. Where the only mode of travelling is by water, the actual expenses that will be incurred for boat-hire shall be allowed up to a limit of Rs. 2 *per diem.*

5. In addition to the above, the authorised charges for tolls at ferries shall be deposited by the party applying for the summons to the extent to which such charges will be incurred.

6. Notwithstanding anything in the foregoing rules,—

(a) when Government servants are summoned to appear as witnesses in Civil Courts all sums received under these rules on account of their travelling and other expenses shall be paid in full to them, a certificate in the form reproduced as Form No. (M) 163 at page 220, Volume II, of the General Rules and Circular Orders (Civil) being at the same time granted; and
(b) for witnesses following any profession, such as Medicine or Law, a special allowance shall be given according to circumstances.

8. For the purpose of ascertaining the amount of tolls to be deposited by the parties, a table shall be prepared and kept in each Court, showing the distance of each Thana from the Sadar Station and each outlying Munsifi, the number of intermediate ferries to be crossed, the authorised rates of charges for tolls at each of these ferries, and the existence or absence of roads or water-ways.

HIGH COURT, R. L. ROSS,
The 10th September 1910. *Registrar.*

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 2891A.—The 25th August 1910.—In exercise of the power conferred by sub-section (2) of section 22 of the Public Demands Recovery Act, 1895 (Ben. Act I of 1895), the Board of Revenue make the following amendments in the rules published with the Notification dated the 22nd November, 1895 at page 1135 of Part I of the *Calcutta Gazette* of the 27th idem, namely :—

(*i*) For rule VII substitute the following :—

"VII.—In cases in which the decree-holder applies for leave to purchase under rule 72 in Order XXI in the first Schedule to the Code of Civil Procedure, 1908 (Act V of 1908), no order to set off the purchase money against the amount of the decree shall be made upon the application for leave to purchase. Such an order shall only be made upon a petition presented after the property has been knocked down to the decree-holder at the auction sale, and such petition shall be stamped with stamps of the value of the poundage fee prescribed in rule IX."

(*ii*) After rule VIII insert the following :—

"IX.—Poundage fee shall be leviable in all cases of sale under the Public Demands Recovery Act, 1895, according to the rates and in conformity with the rules prescribed in the following extracts from pages 110, 111 and 113 to 117 of Volume I of the High Court's General Rules and Circular Orders, Appellate Side (Civil), Ed. 1903 (as amended by G. L. No. 2, dated the 5th May, 1905), namely :—

'*Article 7.*—Where an order for the sale of property, other than an order for the sale of distrained property, under Act VIII of 1885, is issued—

(*a*) * * * * * *

(*b*) for selling the property, a percentage or poundage on the gross amount realized by the sale, up to Rs. 1,000, at the rate of 2 per cent., together with a further fee on all excess of gross proceeds beyond Rs. 1,000, at the rate of 1 per cent :

Provided that, when a sale of immovable property is set aside under section 310A, 312 or 313 of the Code of Civil Procedure,* or under section 174 of the Bengal Tenancy Act, VIII of 1885, no fee shall be charged for selling the property.

* The portions of the Code of Civil Procedure, 1908, which correspond to sections 310A, 312 and 313 of the Code of 1882, are rules 89, 92 and 91 in Order XXI in the first Schedule.

NOTE 1.— * * * * *

The percentage or poundage under clause (*b*) must be paid (1) in a case where the purchaser is a person other than the decree-holder, at the time of making the application for payment of the proceeds of sale out of Court, as provided in rule 4, and (2) in a case where the decree-holder has been permitted to purchase, at the time of the presentation of his application for permission to set off the purchase money against the amount of his decree, as provided in rule 5.

NOTE 2.—The percentage leviable under this article shall be calculated on multiples of Rs. 25 [*i.e.*, a poundage fee of 8 annas should be levied for every Rs. 25, or part of Rs 25, realized by the sale, up to Rs. 1,000, and in the case of the proceeds of the sale exceeding Rs. 1,000, an additional fee of 4 annas for every Rs. 25, or part thereof, should be levied].

NOTE 3.—In cases in which several properties are sold in satisfaction of one decree, only one poundage fee, calculated on the gross sale proceeds, should be levied, 2 per cent. being charged on the gross sale proceeds up to Rs. 1,000 and one per cent. on such proceeds exceeding Rs. 1,000.

Rule 4.—The proceeds of a sale effected in execution of any decree will only be paid out of Court on an application made for that purpose in writing, and the poundage fee for selling the property provided in clause (*b*) of Article 7 of Parts II, III and IV must be paid by stamps affixed to, or impressed upon, the first of such applications, whether it be or be not made by the person who obtained

the order for sale, or whether it does or does not extend to the whole of the proceeds. No fee will be chargeable upon any such application subsequent to the first.

Rule 5.—In cases in which the decree-holder applies for leave to purchase under section 294 of the Code of Civil Procedure,* no order to set off the purchase money against the amount of the decree shall be made upon the application for leave to purchase. Such order shall be made upon a petition presented after the property has been knocked down to the decree-holder at the auction sale, and such petition shall be stamped with stamps of the value of the poundage fee due for selling the property under clause (*b*) of Article 7 of Parts II, III and IV.'"

* The portion of the Code of Civil Procedure, 1908, which corresponds to section 294 of the Code of 1882, is rule 72 in Order XXI in the first Schedule.

2. The Notification dated the 26th June, 1897, published at page 957 of Part I of the *Calcutta Gazette* of the 7th July, 1897, is hereby cancelled.

No. 751T.M.—*The 6th September 1910.*—It is hereby notified that, under section 27 of the Bengal Municipal Act, III of 1884, the Lieutenant-Governor is pleased to appoint the following gentlemen to be Commissioners of the Debhatta Municipality, in the district of Khulna:—

Khulna.

Babu Sib Nath Basu, *vice* Babu Sati Nath Mukharji, deceased.

" Aswini Kumar Sarkar, *vice* Babu Sambhu Nath Ghosh, resigned.

No. 764T.M.—*The 7th September 1910.*—In exercise of the power conferred by clause (*t*) of section 138 of the Bengal Local Self-Government Act of 1885, and with reference to sections 139 and 143 of that Act, the Lieutenant-Governor is pleased to make the following rules as to the preliminary publication, the confirmation and the final publication of by-laws made by District Boards or Local Boards under section 139 or section 140 of that Act:—

1. All draft by-laws framed by a District Board or Local Board under section 139 or section 140 of Bengal Act III of 1885 shall be published in the following manner:—

(*a*) the draft by-laws, together with a notice specifying the date on or after which the draft will be taken into consideration with a view to its final adoption, shall be written both in English and in the vernacular of the district and deposited in the office of the District Board or the Local Board, as the case may be ;

(*b*) copies of the draft and notice, in English and in the said vernacular, shall also be posted up in a conspicuous position at the following places within the district:—

(*i*) the offices of the District Board and the Local Boards,
(*ii*) the offices of the District Magistrate and Collector,
(*iii*) the Subdivisional offices,
(*iv*) the Judge's Court,
(*v*) the Munsifs' Courts,
(*vi*) the Sub-Registry offices,
(*vii*) the police-stations and outposts,
(*viii*) the railway stations,
(*ix*) the principal market-places and ferry ghats,
(*x*) post offices, and
(*xi*) such other public places (if any) as may be selected by the District Magistrate:

Provided that, in the case of by-laws framed by a Local Board, the draft and notice shall be posted only at such of the places hereinbefore mentioned as lie within the subdivision over which the Board has authority.

2. When posting up copies under rule 1, clause (*a*) and clause (*iii*), a public proclamation shall be made, by beat of drum, at the district head-quarters and at the subdivisional head-quarters, where there are Local Boards' offices, notifying the fact that copies have been so posted up, and that the original is open to inspection in the office of the District Board or the Local Board, as the case may be.

3. The notice referred to in rule 1 (*a*) shall allow a period of six weeks for objections or suggestions by the public in regard to the draft.

4. (*1*) When the draft by-laws are finally adopted by a District Board or Local Board, after considering all objections and suggestions received, they shall be forwarded for confirmation to the Commissioner, with the said objections and suggestions.

(*2*) By-laws made by a Local Board shall be forwarded to the Commissioner through the District Board.

5. (1) When by laws follow model by-laws approved by the Local Government, the Commissioner may confirm them without reference to that Government.

(2) When by-laws do not follow model by-laws approved by the Local Government, the Commissioner shall submit them to that Government for approval before confirmation.

6. Before confirming any by-laws, the Commissioner—

(a) shall publish them in the *Calcutta Gazette*, with a notice stating that they will be taken into consideration on or after a specified date (such date being not less than one month after such publication), and that any objection or suggestion received from any person before that date will be considered, and

(b) shall consider all objections and suggestions received before the said date.

7. When any by-laws have been confirmed by the Commissioner, he shall—

(1) publish them in the *Calcutta Gazette*, and

(2) cause them to be posted for a period of one month in English and in the vernacular of the district,—

(a) in the case of by-laws made by a District Board—at the office of the District Board and at the offices of all Local Boards subordinate to the District Board, and

(b) in the case of by-laws made by a Local Board—at the office of that Board.

OFFICE OF THE INSPECTOR OF SCHOOLS, CHOTA NAGPUR DIVISION.

UNIVERSITY MATRICULATION EXAMINATION, 1911.

Test Examination of Private Students.

1. A student who has not attended any school during the present year, or who will have been transferred after the 1st September next to the schools from which he appears without the consent of the Inspector of Schools, will be treated as a private student.

2. All private students are required to appear at the test examination of a zilla school. No private student will be admitted to the test examination unless accompanied, for the purpose of identification, by some person known to the head master of the institution at which he appears.

3. The test examination in all zilla schools in the Chota Nagpur Division will be held on the 14th December 1910 and following days.

4. Each private student will have to pay a fee of Rs. 2 for permission to appear at the test examination to the head of the institution at which he appears. The balance of fees after payment of expenses (stationery, &c.) will go as remuneration to the examiners.

5. The application of candidates for the test examination should reach this office not later than the *20th November 1910*. They should forward the certificates granted to them under the transfer rules by the head master of the school in which they last read In the case of a candidate who had failed at a previous Entrance or Matriculation Examination and did not join a school afterwards, the Registrar's receipt, in original, will be accepted in lieu of the transfer certificate.

6. A student who had failed to pass the annual examination for promotion to the first class at the end of session 1909-10 and then left the school cannot, under any circumstances, be allowed to appear at the Matriculation Examination that will be held on the 1st March 1911 and following days.

7. Each candidate should submit with his application a statement showing—

(1) Age. No candidate who has not completed or will not complete the age of 16 years on the first day of the Matriculation Examination will be allowed to appear at it.

(2) Residence.

(3) Father's name.

(4) Second language, besides English.

(5) Language in which translation is to be made.

(6) Additional subjects.

(7) Whether he appeared at any previous Entrance or Matriculation Examination.

(8) A certificate signed by a respectable gentleman to the effect that the candidate has prosecuted a regular course of study and has been subject to proper discipline.

8. *Boná fide* teachers employed in any of the recognised schools in Chota Nagpur Division may be admitted to the test examination on payment of the prescribed fee, provided they can produce certificates of service and good character from their employers or from the Deputy Inspectors of the districts concerned.

9. The forms of application for permission to appear at the Matriculation Examination will be signed by the head master of the zilla school at which the candidates have undergone the test and will be forwarded by him to the Inspector of Schools for countersignature.

10. The applications and fees, amounting to Rs. 12 in each case, for admission to the Matriculation Examination must be forwarded to the Registrar of Calcutta University by the private candidates themselves so as to reach his office on or before the 16th January 1911.

11. The Matriculation Examination in 1911 will be held on the 1st March 1911 and following days.

INTERMEDIATE IN ARTS AND SCIENCE, B.A. AND B.Sc. EXAMINATIONS, 1911.

1. Deputy Inspectors of Schools, Sub-Inspectors of Schools, and *boná fide* teachers of recognised High English Schools in the Chota Nagpur Division of three years' standing, *i.e.*, those who have served as such for full three academical sessions, or for six months in the case of those who were admitted to a former examination of the same class will be admitted to the above examinations. These latter must have served for six months prior to the submission of their applications to the Inspector for countersignature. School-masters should produce certificates of character and length of service (with dates) and of diligent and regular studies from the managers of the schools in which they are employed. The applications must reach this office not later than the 16th January 1911.

2. Candidates for the B.A. or B.Sc. Examination must forward with the applications their F.A. or I.A. or I.Sc. certificates, and those for the I.A. or I.Sc. Examination their

Entrance or Matriculation certificates, together with a letter, in original, from the Senate of the Calcutta University, permitting them to appear at the examination.

3. Candidates should read carefully the certificate which this office will have to sign and must be careful to supply all information and documents required, without which the Inspector must decline to sign it.

4. The I.A. and I.Sc. and the B.A. and B.Sc. Examinations in 1911 will be held on the 13th March 1911 and following days.

5. Applications and fees for admissions to the above examinations (Rs. 25 for I.A. or I.Sc. and Rs. 35 for B.A. or B.Sc.) must be forwarded to the Registrar, Calcutta University, by the candidates themselves so as to reach his office on or before the 23rd January 1911.

SENATE HOUSE, *the 12th September 1910.*

CALCUTTA UNIVERSITY NOTICE.

THE Senate will proceed in the month of August 1911 to the election of a Tagore Professor of Law for the term of one year, to commence on the 1st of August 1912.

The salary of the Professorship is Rs. 9,000 per annum, and the Professor will be expected to deliver a course of not less than twelve lectures on one of the following subjects:—

(*i*) Codification in British India.
(*ii*) The Law of Compulsory Sales in British India.
(*iii*) The growth and development of Hindu Law from the earliest times to the end of the 18th century.

The salary of the Professor shall be paid in twelve equal monthly instalments, the first instalment to be paid on the first day of the month following that in which the first lecture is delivered.

Candidates for the Professorship are requested to forward their applications to the Registrar on or before the 1st May 1911, stating on which of the abovenamed three subjects they are prepared to lecture. Each candidate will forward with his application one hundred copies of a brief Synopsis of his proposed lectures; and, if he so pleases, the same number of copies of his Introductory Lecture.

The Professor will not, later than the month of August following his election, forward to the Registrar a complete copy (manuscript or typewritten) of the Lectures which he proposes to deliver. The copy will be referred to a Committee of the Faculty of Law consisting of not more than three members to be chosen by the Faculty, who will examine the same and before the 1st November report to the Faculty whether the work is complete and ready for the press. If upon such report the Faculty are satisfied that the work is complete, the Professor will commence to deliver his lectures in the month of December, and complete the delivery thereof in the following February. The copy of the Lectures delivered will remain in the custody of the Registrar, and will be sent to press as soon as practicable after delivery thereof.

If the Professor fails to submit the copy of the Lectures, or if the copy submitted be found, on examination, to be incomplete and not ready for the press, the matter will be referred to the Faculty of Law, upon whose recommendation the Senate may either extend the time or cancel the appointment.

G. THIBAUT,
Registrar, Calcutta University.

Purnea Collectorate, the 15th August 1910. A. H. VERNEDE, Collector.

Notice

IS hereby given that the undermentioned properties belonging to the Maksudpore Raj Estate under the Court of Wards will be put up for sale in the office of the Collector of Gaya on the 19th September 1910 and on any subsequent postponed dates at 1 P.M. The villages or shares will be sold either in lot or in fractions as convenient and the confirmation of the sale is subject to the final sanction of the Board. Intending purchasers should present themselves personally or through duly authorised agents on the date fixed, or they may send their offers in sealed covers to the Collector of Gaya at least one week before the date of sale. One-fourth of the purchase-money should be paid at the time of sale and the remaining three-fourths within 15 days of the sale. In case of the purchasers failing to pay the balance within due date, the one-fourth earnest-money will be forfeited and the property resold at the earliest convenient date at the risk of the purchasers concerned in the same way as if the village were sold for arrears of land revenue under Act XI of 1859. The Collector reserves the power to postpone the sale of any village indefinitely, or not to sell it at all if adequate offers are not received or for any other reason.

N.B.—(*a*) The figures in the following list are not guaranteed to be correct, but an endeavour has been made to furnish correct figures as far as practicable.

(*b*) The income of the properties are believed to be capable of improvement by good management.

(*c*) The sales are intended to pay off the prior debts and mortgages on the estate.

For any further particulars apply to the Manager of the estate at his office in Gaya.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

BILL

further to amend the Bengal Vaccination Act, 1880. Ben. Act V of 1880.

[NOTE.—The references in this Bill to Bengal Act V of 1880 are to the Act as modified by subsequent legislation up to date. The latest official edition is that published in the year 1908.]

WHEREAS it is expedient further to amend the Bengal Vaccination Act, 1880, in manner hereinafter appearing; It is hereby enacted as follows:—

Short title and local extent.

1. (*1*) This Act may be called the Bengal Vaccination (Amendment) Act, 1910; and [*Cf.* Ben. Act V of 1880, s. 1, paras. 1 and 2.]

(*2*) It applies in the first instance only to—

(*a*) Calcutta, as defined in clause (*7*) of section 3 of the Calcutta Municipal Act, 1899, Ben. Act III of 1899.

(*b*) the port of Calcutta, and

(*c*) the Cossipore-Chitpur, Garden Reach, Howrah, Maniktola, South Suburban and Tollygunge Municipalities.

Power to extend Act.

2. (*1*) The Local Government may, by notification published in the Calcutta Gazette, declare its intention to extend this Act or any portion thereof to any town or selected area not mentioned in section 1, sub-section (*2*). [*Cf.* Ben. Act V of 1880, s. 1, paras. 3 to 6.]

(*2*) Any inhabitant of any such town or area who objects to such extension may, within a period of six weeks from such publication, send his objection in writing to a Secretary to the Government of Bengal; and the Local Government shall consider all objections so sent.

(*3*) After the expiration of the said period, the Local Government, if no objections have been so sent, or if it considers that the objections so sent are insufficient, may, by a like notification, effect the proposed extension.

(*4*) The substance of every notification under sub-section (*1*) or sub-section (*3*) shall be proclaimed and notified in the vernacular, within the town or area affected, by such means and in such manner as the Local Government may direct.

Power to suspend Act.

3. The Local Government may, by notification in the Calcutta Gazette, suspend the operation of this Act in any place. [*Cf.* Ben. Act V of 1880, s. 1, para. 7.]

Amendment of section 2 of Bengal Act V of 1880.

4. After the definition of "public vaccinator" in section 2 of the Bengal Vaccination Act, 1880, the following shall be inserted, namely:— Ben. Act V of 1880.

"'Inspector' means a person appointed by the Superintendent of Vaccination to exercise all or any of the functions of an Inspector under this Act."

Repeal of portions of section 2.

5. The following words in section 2 of the said Act are hereby repealed, namely :—

(*1*) the words "or specially licensed by the Lieutenant-Governor to practise vaccination and grant certificates under this Act", in the definition of "medical practitioner", and

(*2*) the word "either" and the words "or by inoculation", in the definitions of "unprotected child" and "unprotected person".

Amendment of section 3.

6. In section 3 of the said Act,—

(*1*) for the words "one year", in the first place in which they occur, the words "six months" shall be substituted, and [Cf. 61 & 62 Vict. c. 49, s. 1 (*1*).]

(*2*) the following words shall be repealed, namely :—

"or, if the child be at the time of its arrival less than one year old, within one year and three months after its birth; and the parent or guardian of every unprotected child living in such place at the date of this Act coming into force therein, and whose age at such date exceeds one year, but does not exceed fourteen years, shall, within six months from the said date."

Amendment of section 4.

7. In section 4 of the said Act,—

(*1*) for the words "by the operator or by any person deputed for that purpose by the Superintendent of Vaccination" the following shall be substituted, namely :—

"by the operator (if a medical practitioner) or by an Inspector";

(*2*) for the words "and it shall be the duty of any public vaccinator who has vaccinated a child elsewhere than at a public vaccine-station to visit the child at the time and for the purpose above mentioned, whether he is requested to do so or not, unless the Superintendent of Vaccination has deputed some other person to act for such public vaccinator in this behalf" the following shall be substituted, namely :—

"and, when any public vaccinator has vaccinated a child elsewhere than at a public vaccine-station, an Inspector shall visit the child at the time and for the purpose above mentioned, whether he is requested to do so or not;"

(*3*) for the words "the public vaccinator" the words "the Inspector" shall be substituted; and

(*4*) for the words "a public vaccinator" the words "an Inspector" shall be substituted.

Amendment of section 5.

8. In section 5 of the said Act,—

(*1*) for the words "public vaccinator," in both places in which they occur, the word "Inspector" shall be substituted, and

(*2*) for the words "three months," in both places in which they occur, the words "one month" shall be substituted.

Amendment of section 6.

9. For section 6 of the said Act the following shall be substituted, namely :—

"6. (*1*) If any Inspector or medical practitioner finds—

Procedure where child is found to have had small-pox or to be insusceptible of successful vaccination.

(*a*) that a child brought for vaccination has already had small-pox, or

(*b*) that a child who has been three times unsuccessfully vaccinated is insusceptible of successful vaccination,

he shall deliver to the parent or guardian of such child a certificate under his hand, according to the form in Schedule B hereto annexed or to the like effect.

(*2*) If the Superintendent is satisfied that such child has already had small-pox, or is insusceptible of successful vaccination, he shall endorse such certificate.

(*3*) Such endorsement shall operate as an exemption from liability to vaccination,—

(*i*) in case (*a*) in sub-section (*1*)—absolutely, and

(*ii*) in case (*b*) in that sub-section—for a period of twelve months.

(*4*) Upon the expiration of the said period, the parent or guardian of such child shall forthwith cause the child to be vaccinated again;

and, if an Inspector or a medical practitioner finds after two further unsuccessful vaccinations that the child is insusceptible of successful vaccination, he shall deliver to the parent or guardian a further certificate under his hand, according to the form of Schedule B hereto annexed, or to the like effect;

and, if the Superintendent of Vaccination be again satisfied that the child is insusceptible of successful vaccination, he shall endorse such certificate, and such endorsement shall operate as an absolute exemption from liability to further vaccination."

Amendment of section 7.

10. In section 7 of the said Act, for the words "Every public vaccinator or medical practitioner who shall have performed the operation of vaccination upon any child and shall have ascertained that the same has been successful," the following shall be substituted, namely:—

"When a public vaccinator or medical practitioner has performed the operation of vaccination upon any child, and an Inspector or such practitioner has ascertained that the same has been successful, such Inspector or practitioner, as the case may be."

Amendment of section 8.

11. In section 8 of the same Act,—

(*1*) for the words "public vaccinator," where they first occur, the word "Inspector" shall be substituted, and

(*2*) after the word "nor" the words "by any public vaccinator" shall be inserted.

Addition to section 9.

12. To section 9 of the said Act the following shall be added, namely:—

"Notwithstanding anything hereinbefore contained, any portion of the fees received by a public vaccinator may be repaid to him for his own use, under the direction of the Chairman of the Corporation or (in areas outside Calcutta) the District Magistrate."

Amendment of section 10.

13. In section 10 of the said Act, after the word "assistants" the words "or any Inspector" shall be inserted.

Amendment of sections 13A, 29A and 29B.

14. In sections 13A, 29A and 29B of the said Act, after the words "public vaccinator" the words "or Inspector" shall be inserted.

Amendment of sections 15, 16 and 33.

15. In sections 15, 16 and 33 of the said Act, after the words "public vaccinators," wherever they occur, the words "and Inspectors" shall be inserted.

Amendment of section 19.

16. In section 19 of the said Act, for the words "public vaccinator" the word "Inspector" shall be substituted.

Amendment of section 28.

17. In clause (*a*) of section 28 of the said Act, before the words "after vaccination" the words "to the operator (if a medical practitioner) or to an Inspector" shall be inserted.

Amendment of Schedule A.

18. In Schedule A to the said Act,—

(*1*) for the words "three months" the words "one month" shall be substituted, and

(*2*) for the words "Public Vaccinator" the word "Inspector" shall be substituted.

Amendment of Schedule B.

19. For Schedule B to the said Act the following shall be substituted, namely:—

"SCHEDULE B.

(*see section 6*).

I, the undersigned, hereby certify

that , the child of , residing at , has already had small-pox

(*or, as the case may be*) ,

that I have (*or* a public vaccinator has) three times (*or* twice, *as the case may be*) unsuccessfully vaccinated , the child of , residing at ,

and I am of opinion that the said child is insusceptible of successful vaccination.

Dated this day of 19 .

(*Signature of Medical Practitioner or Inspector.*)

(*Endorsement by Superintendent of Vaccination.*)"

Amendment of Schedule C.

20. In Schedule C to the said Act,—

(*1*) after the words "by me" the words "(*or* by a public vaccinator)" shall be inserted, and

(*2*) for the words "Public Vaccinator" the word "Inspector" shall be substituted.

Amendment of Schedule E.

21. In Schedule E to the said Act,—

(*1*) for the words "one year" the words "six months" shall be substituted, and

(*2*) for the words "the public vaccinator," in the fourth place in which they occur, and for the words "a public vaccinator," the words "an Inspector" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to make the following amendments in the Bengal Vaccination Act, 1880 (Ben. Act V of 1880), namely:—

(1) to reduce the age at which children must be vaccinated;

(2) to reduce the period of the currency of certificates that children are unfit for vaccination;

(3) to suspend for a year the grant of final certificates exempting children from liability to vaccination on the ground of their having been shown to be insusceptible to successful vaccination;

(4) to take power to transfer from public vaccinators to the Inspectors who are now employed in the Vaccination Department the duty of granting certificates of unfitness for vaccination, certificates of insusceptibility to successful vaccination and certificates of successful vaccination, and to give such Inspectors statutory recognition in other respects; and

(5) to authorize the return to public vaccinators (who are salaried officers) of part of the fees earned by them.

II. The Bill will apply in the first instance to the Calcutta Municipality and Port and Suburban Municipalities only, but power is taken to extend it, by notification, to other areas.

III. The provisions of the Bill are explained in the subjoined notes:—

NOTES ON CLAUSES.

Clause 1 declares that the Bill shall apply at once to the Calcutta Municipality, also to the Port of Calcutta and the Suburban Municipalities, where the conditions are similar to those of the Calcutta Municipality.

2. *Clause 2* authorizes the extension of the Bill to other areas, after hearing objections. None of the provisions of the Bill will come into force in such areas unless and until they are extended under this clause.

3. *Clause 3* repeats a provision contained in section 1 of Bengal Act V of 1880, and authorizes the suspension of the Bill in any place.

4. *Clause 4* introduces a definition of "Inspector", with the object of simplifying references in subsequent clauses. Inspectors are employed wherever the Act of 1880 is in force, and it is proposed to take power—

(*a*) to transfer to them the duty, laid by the Act on public vaccinators, of granting certificates (under section 5) of unfitness for vaccination, certificates (under section 6) of insusceptibility to successful vaccination and certificates (under section 7) of successful vaccination;

(*b*) to place formally upon them the duty of inspecting children after vaccination which is assigned by section 4 of the Act to persons "deputed by the Superintendent of Vaccination";

(*c*) to transfer to them the duty, laid by section 4 on public vaccinators, of directing the re-vaccination of children when the first operation has been unsuccessful;

(*d*) to give them power to make inspections under sections 10 and 13A; and

(*e*) to name them in sections 8, 15, 16, 19, 28(*a*), 29A, 29B and 33 of the Act, and in Schedules A, B, C and E thereto, as a necessary consequence of giving them statutory powers.

The Inspectors are better educated than public vaccinators, and, in so far as it is possible to substitute them for the latter to the extent proposed, the working of the Act will be improved.

5. *Clause 5* repeals that portion of section 2 of the Act of 1880 which includes within the definition of "medical practitioner" persons specially licensed by the Lieutenant-Governor to practise vaccination and grant certificates under the Act. The power to license unprofessional persons to perform the functions of medical practitioners is not used, and it is unnecessary to retain it.

6. *Clause 5* also repeals the references to inoculation in section 2 of the Act of 1880, the practice of inoculation having been prohibited in the town and suburbs of Calcutta and in Howrah by the Bengal Prevention of Inoculation Act, 1865 (Ben. Act IV of 1865).

7. *Clause 6*.—The period for the vaccination of children born within an area to which the Act applies is reduced from one year after birth to six months after birth. This is in

accordance with English practice. Vaccination should be performed before the commencement of the period of dentition, and when small-pox is epidemic unprotected infants are particularly susceptible to infection. Protection should therefore be extended to them at the earliest opportunity. Further, the older a child grows the more difficult it may be to trace it and secure its vaccination, owing to the removal of its parents to other dwellings.

8. *Clause 6.*—The period for the vaccination of children under fourteen years of age who are brought into an area to which the Act applies is fixed at six months after arrival in all cases.

9. *Clause 6.*—It is proposed to repeal paragraph 3 of section 3 of the Act of 1880, as to the vaccination of children living in places in which that Act is newly brought into force. The paragraph is no longer required, because the Bill is not likely to be extended to any area in which the Act of 1880 is not already in force.

10. *Clause 8.*—The period of the currency of a certificate that a child is unfit for vaccination is reduced from three months to one month. It has been found that parents file medical certificates of unfitness for vaccination when their children are suffering from merely ephemeral ailments, which afford no sufficient reason for postponing vaccination for so long a period as three months; and it is believed that an exemption for one month (renewable, if necessary, for further periods of one month each) would be ample in the majority of cases.

11. *Clause 9* amends section 6 so as to declare that a certificate of the insusceptibility of a child to successful vaccination shall have effect, in the first instance, for twelve months only, and that upon the expiration of that period the child must be vaccinated again also that, if it is found after two further unsuccessful vaccinations that the child is still insusceptible to successful vaccination, an absolute certificate of exemption shall be given. It does not follow that if a child is insusceptible to successful vaccination at one time he will be insusceptible a year later; and it is thought that further attempts should be made before his exemption from liability to vaccination is finally declared.

12. *Clause 12* adds a paragraph to section 9 of the Act, to authorize the return to public vaccinators (who are salaried officers) of part of the fees earned by them. It is considered important that these vaccinators should be zealous in pushing vaccination, and it is believed that the hope of reward would have more effect than the fear of punishment.

13. *Clauses 13 to 21.*—See paragraph 4, *ante.*

RESOLUTION ON THE ANNUAL REPORT OF THE PORT OFFICER, CALCUTTA, FOR THE YEAR 1909-10.

No. 2369Marine.

Government of Bengal.

MARINE DEPARTMENT.

Dated Calcutta, the 8th September 1910.

RESOLUTION.

READ—

Letter from the Port Officer, Calcutta, No. 4470, dated the 15th August 1910, submitting the Annual Report of his Department for 1909-10.

There were no casualties nor retirements in the Pilot Service during the year. Two leadsmen apprentices were, however, recruited—one locally and the other from England, and the total number of pilots now on the list is 71, viz., 58 pilots and 13 leadsmen.

2. The number of vessels visiting the port slightly decreased during the year: 1,610 vessels with a gross tonnage of 6,148,549 arrived, while 1,615 vessels with a gross tonnage of 6,151,667 left. The corresponding figures for the

previous year were 1,642 with tonnage of 6,241,062 and 1,636 with tonnage of 6,228,336. The average tonnage of vessels visiting the port was 3,814, against 3,803 in 1908-09.

The pilotage receipts amounted to Rs. 13,67,388, against Rs. 13,88,898 in 1908-09 and Rs. 13,49,151 in 1907-08.

3. The number of vessels drawing 21 feet and over which entered the port during the year decreased, while the number of such vessels leaving the port increased. The numbers were 298 inwards and 928 outwards, against 349 and 914 vessels, respectively, in the year before.

4. Three vessels were neaped during the year for want of sufficient depth of water over the bars of the river—two at Calcutta and one at Diamond Harbour. Two vessels were neaped last year at Diamond Harbour. Seven vessels were detained at the Sandheads for want of pilots during October 1909. The detention was due mainly to a number of vessels having to wait at Saugor and in the river owing to the passage of a cyclone, also to a large number of steamers arriving at the Sandheads immediately thereafter. No vessel was detained in 1908-09 for want of a pilot.

5. There was one collision against five in the previous year, and 15 groundings against 18.

One grounding was due to the negligence of the pilot and two to unskilfulness. The pilots were suitably dealt with by the Government. For the collision the pilot was not to blame.

6. Fifty-six preliminary enquiries were held by the Port Officer. Two of these cases were referred to Departmental Courts and six to Special Courts of Enquiry.

7. Under the provisions of section 10 of the Indian Merchant Shipping Act, 1883, the High Court, in the exercise of its Admiralty jurisdiction, investigated the charge of misconduct brought against Mr. Ralph Begg, Chief Engineer, S. S. *Mutlah*. Mr. Begg was found to blame by the Honourable Court, and his certificate as first-class Engineer was suspended for three weeks. This is the first case of its kind.

No Court under Act XII of 1859 (an Act for the trial of pilots) was held during the year.

8. Ninety-six candidates appeared at the examination for the grant of Colonial and Home-trade Certificates of Competency, of whom 53 passed. Four hundred and forty-seven candidates went up for the examinations for the grant of Certificates of Competency as Master, Serang, Engineer and Engine-driver under the Inland Steam-vessels Act, 1884, of whom 174 passed. One candidate was granted a license for a steam-tug pilot.

9. Mr. E. G. Venn, Chief Engineer, Royal Indian Marine, acted as First Engineer and Shipwright-Surveyor up to the 1st December 1909, when he was relieved by Mr. G. Robertson, the permanent incumbent, on his return from furlough.

Mr. F. Olford, Engineer, Royal Indian Marine, continued to act as Second Engineer and Shipwright-Surveyor up to 30th November 1909, on which date he was confirmed in that appointment. Mr. Laslett, Engineer, Royal Indian Marine, Third Engineer and Shipwright-Surveyor, relieved Mr. H. Stark of the duties of Third Engineer and Shipwright-Surveyor on the afternoon of the 30th November 1909.

10. Commander St. L. S. Warden, R.I.M., presided over the Department throughout the year.

Owing to the increasing trade of the port and consequent increase of work, the appointment of Deputy Port Officer and Senior Deputy Shipping Master was sanctioned with the approval of the Government of India, and Commander C. B. Henley, R.I.M., was appointed to the post from the 1st May 1909.

Lieutenant A. E. Harold, R.I.M., continued as Assistant Port Officer and Deputy Shipping Master.

By order of the Lieutenant-Governor of Bengal,

T. BUTLER,

Secretary.

RESOLUTION ON THE ANNUAL REPORT ON THE WORKING OF THE CO-OPERATIVE CREDIT SOCIETIES IN BENGAL FOR THE YEAR 1909-10.

REVENUE DEPARTMENT—AGRICULTURE.

Darjeeling, the 9th September 1910.

RESOLUTION—No. 1425T.—R.

READ—

No. 1186 C. O. S, dated the 28th July 1910, from the Registrar of Co-operative Credit Societies, Bengal, submitting "Report on the Working of Co-operative Credit Societies for 1909 10."

THE report covers the year ending 31st March 1910. Mr. W. H. Buchan, I.C.S., held the office of Registrar for the first 18 days of the year and also from the 26th October 1909 to 10th February 1910. During the remainder of the 12 months Babu Jamini Mohan Mitra, M.A. acted as Registrar, and the report has been written by him.

2. The record of the year is one of steady and encouraging progress. The relative advance made can be measured by summarizing the development of the movement since the passing of the Act.

YEAR.	Central Societies	URBAN SOCIETIES.		RURAL SOCIETIES.		Total number of societies.	Membership	Capital (excluding value of grain).
		Limited liability.	Un-limited liability.	Lending cash.	Lending grain.			
								Rs.
1905-06 ...	...	4	...	53	...	57	2,606	32,000
1906-07 ...	...	4	...	173	4	181	7,884	1,10,000
1907-08 ...	...	9	10	326	5	350	12,094	2,25,000
1908-09 ...	2	13	16	359	5	395	14,604	3,65,000
1909-10 ...	4	25	22	456	4	511	22,871	6,96,993

The development indicated in this table has been achieved in spite of the fact that for the last three years the attention of the Registrar has been given chiefly to consolidation of the work in existing centres, and that expansion in new areas, though not deliberately discouraged, has been very cautiously permitted.

3. The urban movement has, without much direct assistance from the Registrar, made considerable progress during the year, and urban societies have proved a boon to clerks in Government offices and mercantile firms amongst whom indebtedness appears to be great. The urban movement however does not appear to have assisted to any appreciable extent the small traders and artisans of towns, and it is hoped that an attempt will be made to extend to them the benefits of the Act, whenever a suitable opportunity occurs.

4. On the rural side there has been much progress, which is shown both in the development and increased efficiency of the old societies, and in the actual increase in the number of societies. The expansion has taken place chiefly around old centres, and is not to any great extent due to the tapping of new areas. It is satisfactory however to observe that during the year more attention was paid to Orissa, which has always been regarded as a promising field for co-operation.

5. The policy, which is now followed in Bengal, is the formation of societies within compact areas, and their organization, as they gain in strength and stability, into local self-administered unions through which they can control one another and more easily obtain financial assistance. It has been recognised

from the beginning that, without a satisfactory solution of the problem of combination of rural societies in self-controlled organizations for the purpose of mutual control and finance, the movement can never be safely developed beyond very narrow limits. Towards the settlement of this question definite progress has been made. Two new unions, at Rahika in Darbhanga and Banki Dompara in Cuttack, have been added to those formed last year in Midnapore and Khulna. None of these unions is old enough to furnish material for definite conclusions, but their working, which has been reviewed in detail in the report, goes far to justify the belief that the villagers can rise from co-operation within their village to the combination of societies in a larger federation. During the year some modifications of the original union scheme were devised to suit the conditions of backward tracts. It is hoped that it will now be possible to make rapid progress in the formation of unions in areas where the members of societies have acquired sufficient experience.

It is however apparent that the perfecting of local unions will not finally dispose of the problem of organization. Financial requirements alone will make it necessary before very long to attempt a wider combination. The most probable solution of the problem appears to be the formation of something in the nature of a provincial banking union located in Calcutta, which will connect the different local and district unions with one another and will also link the urban with the rural organization. In some quarters it has been suggested that such an organization should be established at once; but the time has not yet come for an attempt to create any form of central machinery on a provincial scale. The subject will however be kept prominently in view, and the Registrar should examine it thoroughly in consultation with the non-officials who are taking a leading part in the movement.

6. Of the work in general one striking feature is the facility with which money is now obtained from outside sources. Local capital has also increased greatly, and it is satisfactory to observe that the unions are likely to attract this capital in increasing sums. But perhaps the most encouraging individual feature of the year's work is the growing tendency of members to make deposits in their societies. The total amount deposited has trebled itself during the year, having risen from Rs. 21,926 to Rs. 64,349. These figures are conclusive evidence of the growing faith of the members in these societies.

7. The examples cited to illustrate the moral effects of the village societies are interesting. There can be no doubt that a co-operative society can, and, if conducted in a proper spirit, will, extend its activity in the village in various directions; and there is every reason to hope that in time such societies will exercise a beneficial influence outside the purely economic field.

8. In previous reports it has been pointed out, that without popular interest behind it, the co-operative movement can never be a power in the land, and stress has been laid on the want of honorary organizers. The Lieutenant-Governor regrets to note that the number of non-official workers is still small, and that men with influence in the districts are on the whole apathetic. While cordially expressing his obligation to the small band of non-officials who are furthering the movement and without whose assistance no progress would have been possible, His Honour desires again to emphasize the increasing need of non-official organizers. District officers might render considerable assistance by encouraging suitable men to come forward.

9. The Lieutenant-Governor desires to acknowledge the good work done by Mr. Buchan in supervising the work throughout the year, and the energy and the judgment in administering the department which the Registrar, Babu Jamini Mohan Mitra, has displayed. His thanks are due to the officials referred to by the Registrar, and he is specially indebted to the honorary organisers and to the other non-officials mentioned in paragraph 69 of the report.

By order of the Lieutenant-Governor of Bengal,

W. R. GOURLAY,

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE ANNUAL REPORTS OF THE VETERINARY COLLEGE AND OF THE CIVIL VETERINARY DEPARTMENT, BENGAL, FOR THE YEAR 1909-10.

REVENUE DEPARTMENT—AGRICULTURE.

Darjeeling, the 8th September 1910.

RESOLUTION—No. 1403T.—R.

READ—

The Annual Reports of the Veterinary College and of the Civil Veterinary Department, Bengal, for the year 1909-10.

COLONEL RAYMOND was Principal of the Bengal Veterinary College throughout the year, and during the absence of Mr. Quinlan on leave from 19th August to 18th December 1909 he held charge of the office of Superintendent, Civil Veterinary Department, in addition to his own duties.

2. *Bengal Veterinary College.*—The number of students at the commencement of the session was 162, but 30 of these did not continue their studies throughout the year; of the balance, 48 came from Bengal, 16 from Bihar, 3 from Orissa, 53 from Eastern Bengal and Assam, and 12 from other provinces. The results of the final examination were satisfactory, the percentage of passes being 86·48. The uniformly satisfactory result from year to year reflects great credit on Colonel Raymond and his staff. The conduct and general health of the students were good. It has been arranged by the Medical Department that the college hostels shall in future be under the charge of the medical officer of the Eastern Bengal State Railway Hospital which is nearer to the college than the Cossipore Hospital. During the year it was found possible to complete the long-deferred project of building a new house for the Assistant Principal, and his former quarters have been converted into a sick bay where students will be nursed under the eye of the Principal. A football and cricket ground has been provided, and a gymnasium instructor engaged. Lack of funds again stopped the progress of the larger projects in connection with the institution.

3. *College Hospital.*—During the year under report 5,680 cases were treated as compared with 5,144 during the previous year. The increase of 536 is satisfactory. It is a matter for satisfaction that there are indications that the competition of private practitioners in the town, many of whom are old college students, is affecting the number of cases treated at the hospital.

4. The administration of the Glanders and Farcy Act in Calcutta and its vicinity was conducted smoothly and efficiently. The equine population of Calcutta and vicinity including European horse-dealers' stables, is estimated at 15,000, and the stables under the supervision of Colonel Raymond and his staff numbered about 4,000, all of which were inspected. In 54 stables cases of glanders were detected. The total number of cases admitted to the contagious diseases hospital was 420. In 90 cases the animals were destroyed, in 8 cases they died in hospital; 315 animals were discharged, and 7 remained under observation at the close of the year.

5. The system of compensating poor people whose horses are destroyed under the Glanders and Farcy Act, and of paying a small fee to persons who give information of outbreaks of diseases which come under the operations of the Act, continued to give satisfactory results. There was no case of friction with the owners of horses.

6. With the sanction of the Chairman of the Calcutta Corporation, Colonel Raymond has undertaken the management of outbreaks of infectious disease amongst cattle in Calcutta, and this work is being carried on successfully by the staff. In Calcutta and suburbs 2,443 cattle were inoculated against rinderpest.

7. *Raymond Research Laboratory.*—This institution, which is now fully equipped with up-to-date instruments, is doing excellent work in diagnosing contagious and obscure diseases in cases admitted into the hospital or from materials sent by veterinary officers from the mufassal.

8. *Civil Veterinary Department—Diseases.*—Better arrangements were made during the year for collecting information regarding deaths of animals from contagious diseases, although the figures cannot yet be said to be satisfactory. The Inspector-General of Police issued orders that careful records of outbreaks should be kept at all thanas, and also that veterinary assistants should be permitted to inspect the registers so that a check might be placed on the returns. The total mortality reported among horses and cattle was 386 and 17,645, respectively, as against 301 and 16,456 in the previous year. The increase in the number of deaths recorded is due more to these inspections than to any actual increase in the number of outbreaks over that of previous years; but in many districts there is still a tendency to underestimate. Outside Calcutta and the suburbs 12,549 cattle were protected against rinderpest by serum inoculation as compared with 11,659 in the previous year. Of these, only 93 animals died after inoculation. The number of inoculations would have been larger if the work had not been interrupted by the stoppage of the supply of serum from Mukteswar between September and December 1909. The question of arranging for a more convenient source of supply of serum is under consideration.

9. *Veterinary Dispensaries.*—No new dispensary was opened during the year. There were 27 dispensaries at the close of the previous year, of which one at Jessore was closed as the veterinary assistant was unable to undertake its supervision in addition to his district work. There has again been a considerable falling off in the number of patients admitted to the dispensaries during the year under report. It is reported that the actual decrease was not nearly so great as the figures indicate, for a more accurate system of recording cases to a great extent explains the low figure of this year. But when all allowance has been made it is clear that local residents do not sufficiently appreciate the benefits afforded by the veterinary dispensaries, or support them as they ought.

10. *Breeding Operations.*—The Siripur Farm supplies bulls for breeding purposes to the tenants of the Hathwa Raj at various centres within the estate with encouraging results. During the year a herd of *desi* cattle consisting of 45 cows, 43 young stock and 4 bulls was made over to this department by the Inspector-General of Agriculture, India. These cattle have been sent to the Bettiah Estate where they will form the nucleus of a cattle farm on lines similar to those followed in the Siripur Farm. The herd of Siri cattle at Kalimpong now numbers 15 cows and one bull.

11. *General.*—The subordinate inspecting staff for mufassal work consists of five inspectors, who are in charge of the five circles into which the province has been divided There are 62 (22 stationary and 40 itinerant) veterinary assistants in the province, and for the inspection of their work and other duties the staff of inspectors requires to be strengthened.

12. Since the close of the year, the scheme for the reorganisation of the subordinate service has been sanctioned so far as the veterinary assistants are concerned. Under it, the prospects open to these officers will be improved. Recruits will in future be appointed as members of a provincial service, which will be subject to the ordinary rules governing leave and pension applicable to Government servants of similar standing. It is hoped that eventually the province will be equipped with one itinerant veterinary assistant in each subdivision and one veterinary dispensary at each district and subdivisional head-quarters. Local bodies have been asked to consider their ability to work up gradually to this scale which is by no means in excess of the real requirements of the province.

13. The Lieutenant-Governor desires to acknowledge his appreciation of the services of Colonel Raymond, the Principal of the College, who has continued to further the veterinary work of the province with his accustomed tact and ability and of Mr. Quinlan, the Superintendent of the Department, for the manner in which he has carried out his duties. He endorses the opinion expressed by these officers regarding their subordinates.

By order of the Lieutenant-Governor of Bengal,

W. R. GOURLAY,

Offg. Secy. to the Govt. of Bengal.

PROSPECTUS OF THE DASARA EXHIBITION OF 1910.

Introductory.—With the sanction of the Government of His Highness the Maharaja of Mysore, the Committee issue the following Prospectus in connection with the Exhibition of 1910.

2. *Opening of the Exhibition.*—This year the Exhibition will be opened to the judges for judging the exhibits and the Press correspondents from the 5th to the 9th, and to the public from the 10th to the 25th October 1910, both days inclusive, The cattle (local) and poultry show will begin on Saturday, 15th October, and close on Tuesday, 18th.

3. *Object of the Exhibition.*—The primary aim of the Committee is to impart to the Exhibition an educative character and to bring together articles, machinery and processes, the use of which it is desirable to bring to the notice of the raiyat, artizan and the manufacturer by actual demonstration. But as the exhibition of a single specimen may not afford full information and may not be sufficiently attractive to the visiting public, articles intended for sale will also be admitted.

Sale rooms and sale of exhibits.—Articles on a larger scale sent merely for sale will have to be kept in separate stalls and in charge of the exhibitors or their agents. There is no objection to the sale of actual exhibits; but they will not be allowed to be removed from the Exhibition grounds till the termination of the show. Articles admitted for purposes of sale alone may be removed after purchase. No article will be allowed to leave the Exhibition grounds without a gate pass. Those who desire special facilities for the sale of articles or demonstration of processes are requested to place themselves in communication with the Secretary to the Exhibition Committee.

4. *Horticultural show.*—The horticultural show, comprising Class II, Group 2, items 1 to 7, mentioned in the first section of the Prospectus, will be held on the 15th October 1910 and kept open till the close of the following day.

5. *Lectures and demonstrations.*—Lectures will be delivered by competent persons in English and Kanarese on subjects connected with industry, agriculture, the value of agricultural implements and machines, their cost, construction and repairs. Arrangements will also be made for holding a competition on the Exhibition grounds in ploughing, weaving and pottery work, home industries and processes connected therewith. The exact time and place of lectures and demonstrations will be announced later on by handbills and notices.

6. *Donations.*—The Committee would thankfully accept donations for awarding prizes or medals from individuals or associations, desiring to give an impetus to any special branch of agriculture or industry.

7. *Classification of exhibits.*—The classification of exhibits will be according to the prize list subjoined to the prospectus, and entries in several sections should be made in the application forms prescribed.

8. *Open to all India.*—The Committee invite exhibits from all the districts of the State as well as from outside. They also appeal to the various agricultural departments and associations in other parts of India, Burma and Ceylon to help them with exhibits and suggestions.

9. *Judges.*—Leading raiyats and non-official gentlemen will be invited to assist the Committee in judging the exhibits.

10. *Admission fees for visitors.*—An admission fee of annas two per head will be levied each time a person enters the Exhibition buildings. Season tickets will be issued at Re. 1 per head. These are not transferable, but books of eight single tickets may be had also at Re. 1 per book. Return Railway season tickets between Bangalore and Mysore at a reduced rate, which will admit to the Exhibition for the whole period, will be arranged for.

RULES AND REGULATIONS.

1. *Noxious articles.*—Explosives or any substance noxious or dangerous will not be admitted by the Committee.

2. *Particulars regarding the exhibits.*—Intending exhibitors are requested to send to the Secretary to the Exhibition Committee particulars of exhibits they intend to forward and the amount of space which their exhibits may take up in the necessary entry form appended to this Prospectus. Forms may also be obtained from the District, Divisional and Taluk Offices, or from the Secretary to the Committee; plain paper of foolscap size may also be used provided all the headings in the form are properly copied and filled up and separate sheets should be used for each section.

3. *Applications from exhibitors.*—Applications should reach the Secretary not later than 10th September 1910. Each application should contain a post-card on which the address and the post town of the exhibitor are legibly written.

4. *Lists from taluks.*—Deputy Commissioners of Districts with the District Committee, Subdivisional Officers and Amildars of Taluks, are requested to convene, as early as possible, a meeting of the leading artizans, raiyats and merchants residing within their respective charges, to explain to them fully the object and the scope of the Exhibition, to carefully acquaint them with the rules and regulations, drawing particular attention to such paragraphs as 2, 3, 10, etc., to distribute to them forms of applications, to have them filled up by intending exhibitors and to compile and forward them to the Secretary.

5. *Articles not enumerated.*—The classified list of prizes will show the nature of articles which can compete at the Exhibition. Articles not specially enumerated in the prize list may, however, be admitted by the Committee at their discretion.

6. *No fees to be charged for exhibits.*—No fees will be charged for the admission or registration of exhibits or for the space allowed for them.

7. *Acceptance of exhibits.*—The Committee reserve to themselves absolute discretion as regards the acceptance or rejection of exhibits and the allotment of space, covered or uncovered.

8. *Delivery of exhibits.*—Articles intended for the exhibition may be brought by the exhibitor or his agent or servant and delivered at the Exhibition grounds or sent by post or railway, and all taluk and district *exhibits should be sent through the Deputy Commissioners of Districts.*

9. *Payment of freight and transport charges.*—No exhibits in respect of which the necessary freight or transport charges have not been paid by the exhibitor will be accepted by the Committee.

10. *List of particulars.*—All packages received or delivered and all implements and machinery intended for the Exhibition must bear a label specifying name and number of exhibits and the registered number of the exhibitor and must be addressed to the Secretary. They must contain a list in duplicate showing the name or description of the article, its price, the place of production or manufacture, name of the manufacturer or exhibitor; in the case of exhibits in the Agricultural section essential particulars should be given, such as—

1. The season of sowing.
2. The soil on which they are grown.
3. The quantity of seed per acre.
4. The manure used.
5. Whether any irrigation is required.
6. The time required for the maturing of the crop.
7. The average yield per acre.
8. Any other interesting details regarding cultivation.

11. *Exhibits which have already won prizes.*—Exhibits which have won prizes or medals in the Mysore Exhibitions of 1906, 1907, 1908 and 1909 shall be precluded from competing for prizes, though there is no objection to their being accepted for purposes of show or sale.

12. *Date of delivery of the exhibits.*—Intending exhibitors are requested to send the exhibits so as to reach Mysore on the 1st September 1910, from which date the Committee will arrange to take charge of exhibits, *and no exhibits should arrive later than the 20th of September 1910.*

13. *Belated exhibits.*—Articles that are not delivered at the Exhibition Hall in the time fixed may be admitted at the discretion of the Committee subsequent to the date in paragraph 12, but shall not be entitled to compete for prizes unless accompanied by an admission fee of five per cent. of the value of the articles sent, the minimum charges in all such cases being annas eight and the maximum rupees five. The Committee are competent to remit the fees, provided it is proved that the exhibits were not belated through the fault of the exhibitor.

14. *Perishable articles.*—Vegetables, fruits and other perishable articles may, however, be delivered at the Exhibition hall till 7 P.M. on the 14th October 1910.

15. *Admission of exhibits.*—No exhibits will be admitted without a pass signed by the Secretary or members of the Committee on duty at the Exhibition grounds.

16. *Responsibility of the exhibitors.*—Exhibitors will have to pay every expense of transit, delivery, fixing and removing their exhibits, and they must either personally or by their agents or servants superintend their reception and removal, in default of which the Committee reserve to themselves the right of doing whatever may be considered necessary at the expense of the exhibitor.

17. *Committee accept no responsibility.*—No responsibility will be accepted by the Committee as to any damage or loss, howsoever occurring.

18. *Special facilities.*—Exhibitors are requested to mention in their applications whether they wish to illustrate practically any process of manufacture or the working of any implement or machinery, and, if so, to state briefly the nature of the demonstration and any special facilities they require.

19. *Special arrangements to be made at the exhibitor's expense.*—If the exhibitors require any special arrangements to be made (or have to mount their machinery) they must carry them out at their expense, but the Committee will be glad to give such aid as may be possible in the shape of getting skilled or unskilled manual labour at the exhibitor's expense. The expenses of demonstrating machinery and implements should be borne by the exhibitor, except where special arrangements have been made with the Committee.

20. *Valuable exhibits.*—All valuable exhibits must be forwarded under the charge of an attender.

21. *Exhibits unaccompanied by men in charge.*—Exhibitors who are unable to attend personally or send their agents in charge of exhibits may make special arrangements with the Committee for the exhibition of their goods on payment, in advance, in full, of the estimated expense.

22. *Weighing of exhibits.*—The Committee entrust the work of receiving the exhibits to responsible officials. But as the goods are landed near the Exhibition grounds by special arrangements, it is not possible to weigh every consignment before taking delivery of it. So the exhibitors are requested to take every precaution in packing their exhibits and to send to the Committee in time an accurate list of exhibits sent by them. Exhibitors who wish that their consignment should be weighed at the railway station before delivery should intimate their wish to the Secretary in time and remit in advance a special fee of one rupee on each consignment to be thus weighed.

23. *Acknowledgment of exhibits.*—Receipt of exhibits will be acknowledged by return of the duplicate list mentioned in paragraph 10 to the exhibitors, duly signed by the Secretary. No other kind of receipt shall be sent. Any difference between the list and the articles actually received will be noted in the duplicate list.

24. *Free pass to exhibitors*—In cases in which the owners themselves are in charge of exhibits, the necessary free pass will be given.

25. *Free admission to bonâ fide raiyats and artizans.*—Raiyats and artizans unable to pay fees, belonging to the Mysore State or from outside, who produce certificates of identification signed by their respective Taluk Officers in Form B appended to this Prospectus, will be admitted free.

26. *Space for articles on sale*—Accommodation for articles to be sold by owners will be found in the sale-rooms erected within the Exhibition grounds, as far as possible, and a nominal rent will be charged for special accommodation, and 3 per cent. will be charged on the sales conducted in the sale-rooms by the exhibitors themselves or their agents. Sellers may have temporary booths put up at their own cost in the Exhibition grounds by previous arrangements with the Committee.

27. *Exhibits for sale.*—Exhibits labelled "for sale" will be sold during the time the Exhibition lasts; but no article will be removed till the close of the Exhibition.

28. *Commission on sales.*—A commission of half an anna in the rupee will be levied on all articles sold in the Exhibition stalls and grounds through the salesmen appointed by the Exhibition authorities In this case the money will be received and remitted to the exhibitor by the Exhibition office.

29. *Removal of exhibits.*—All exhibits must be removed within a fortnight after the close of the Exhibition. Exhibits remaining after that time will be disposed of as the Committee deem fit. Perishable articles will be allowed to be removed at the option of the owners or purchasers within 24 hours after the opening of the Exhibition.

30. *Exhibits on loan.*—Works of art and articles of special merit, including those of antiquarian interest, will be thankfully received. Gentlemen willing to lend them are requested to place themselves in communication with the Secretary or any of the members of the Committee who will inform them of the acceptance of the offer and will make necessary arrangements in connection with the exhibition of articles.

31. *Exhibits belonging to Departments of Government.*—Articles or cattle exhibited by any Department of Government will not be eligible for money prizes or medals, but may be awarded certificates of merit. Certificates of merit will also be given to such of the exhibits from private gentlemen as have not been provided for in the Prospectus, if they are considered by the judges worthy of the same. (This rule does not preclude Government servants or pupils of industrial schools from competing for prizes, if the exhibits are manufactured by themselves.)

32. *Admission of live-stock.*—The time of the year when the owners of cattle are fully engaged in the fields having been found very unsuitable for a regular cattle show, it has been decided to restrict the show to the fine specimens of local (Mysore City) cattle irrespective of breeds and classes.

33. *Accommodation for cattle.*—Accommodation will be provided free of cost.

34. *Practical test.*—Working cattle may, at the owners' opinion, be subjected to a practical test as to their powers of draught. They must be the *bonâ fide* property of the exhibitor.

35. *Care-taker.*—Each animal or lot competing separately must be in charge of a care-taker who will remain in charge of the exhibit and must be ready to lead it out at any time as required by the Committee.

36. *Poultry show.*—A class has been opened in the Prospectus for poultry and prizes will be awarded for different pure strains.

37. *Poultry appliances.*—Prizes will also be awarded for incubators and other poultry appliances.

38. *Distribution of awards*—Prizes and medals will be distributed at the close of the Exhibition. This year it is proposed to hold a distribution of prizes in the Exhibition grounds on or about the 25th October 1910.

39. *Number of judges.*—The judges in each class or group will not be less than three, but no prizes will be awarded unless, in the opinion of the judges, the exhibits merit the reward. Judges cannot compete for prizes in classes or sections in which they are judges, and the decision of the judges is final.

40. *Photograph of articles exhibited.*—No articles exhibited may be copied, photographed, drawn or reproduced in any manner without the special permission of the exhibitor and the Committee. General photographs of stalls may, however, be taken with the permission of the Committee.

41. *Committee's decision final.*—The Committee have full power to make rules for the conduct of the exhibition under these regulations, and their decision is final in all cases.

42. *Acceptance of rules.*—All persons who become exhibitors shall be held to signify their assent to and acceptance of the foregoing rules and regulations and also such other rules as the Committee may hereafter issue not inconsistent with these regulations.

43. *Official hand-book.*—An official hand-book of all exhibits with the names and the addresses of the exhibitors and their agent or agents, if any, will be published before the opening of the Exhibition without any further cost to the exhibitors. It is expected that a

large number of people will visit the Exhibition and that many of them will probably purchase the official hand-book which will be sold at a nominal price. It will be a capital opportunity for advertisers to advertise through the medium of this hand-book. Advertisements will be received for publication in the official hand-book at the following rates:—

	Rs.
Full page	20
Half page	12
Quarter page...	7-8

(Special rates will be charged for advertisements on the pages of the cover and coloured flyleaves and other special positions.)

Applications for these advertisements will be received not later than 20th September 1910 and must be accompanied by a remittance in full payment of the amount due for space applied for.

44. *Communications regarding the Exhibition.*—All communications regarding the Exhibition should be addressed to the Secretary to the Mysore Dasara Industrial and Agricultural Exhibition Committee, Mysore.

MYSORE,
Dated 27th June 1910.

G. SUBBUSWAMI IYER,
Secretary.

NOTES ON THE LACE AND EMBROIDERY SECTION OF THE MYSORE DASARA INDUSTRIAL AND AGRICULTURAL EXHIBITION.

Owing partly to the fact that it is extremely difficult to transalate into Indian Vernaculars English terms used for needle-work and embroidery, and partly because people do not readily understand the difference between an Exhibition and an ordinary shop or stall, exhibitors have not always understood what articles are required and will be rewarded, and have sent in much to former Exhibitions that, even if good in itself, was debarred from getting any prize by the fact that it was not asked for in the Prospectus.

It has therefore been thought well to publish a few explanatory notes.

The room devoted to the lace and embroidery section is necessarily limited, and it is not possible in any one year to include all kinds of needle-work.

If too many specimens are received, they cannot be displayed effectively, and the crowding of embroideries, etc., only results in confusion, dust, damage to the exhibits, and prevents their being satisfactorily shown.

Therefore, instead of crowding the stalls with masses of needle-work, good and bad, old and new, clean and dirty, whether included in the Prospectus, or not, the Sub-Committee wish the Exhibition to be confined to such specimens only as—

(1) are asked for in the Prospectus,

(2) are considered by them to be really of excellent workmanship,

(3) are new and fresh.

N.B.—Valuable specimens of old embroidery, lace or needle-work should be placed apart in "A loan exhibition."

Exhibitors would do well to note that the best materials available should be used, and that one perfect specimen of any particular work is much more likely to gain a prize than many indifferent specimens. For instance, one silk tie, perfectly knitted in good silk of a nice colour, would stand a better chance of reward than a score of ties carelessly knitted.

Moth-eaten, faded, torn or dirty work cannot be accepted.

Competitors will please note that this year cushions worked in wool work, crewel work, chenille work or bead work are not included in the Prospectus; and also that the bead work and miscellaneous work mentioned in Group III, 5 and 6, are only to be done at the Exhibition itself, before judges, in the working competition; and that no bead work or miscellaneous work is to be sent for exhibition.

In judging the needle-work, its suitability for use and sale (including the possibility of its being easily cleaned or washed) will be taken into consideration, as well as beauty of design, material, colouring and workmanship.

Preference will be given to Swadeshi exhibits, and particularly to those of the Mysore manufacture.

In "the working competition before judges" careful arrangements will be made to respect the gosha or "purdah nashin" and high caste ladies.

All apparatus and materials for that competition must be provided by the competitors. Work may be fixed, but not begun.

G. SUBBUSWAMI IYER,
Secretary.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; d, drizzling rain; p, passing temporary showers; ●, continued rain; g, gloomy; l, lightning; K, thunderstorm; /, strong wind.

NOTIFICATION.

RULES FOR REGULATING THE USE OF MOTOR CABS IN THE TOWN AND SUBURBS OF CALCUTTA AND THE TOWN OF HOWRAH.

No. 2425J.—The 20th September 1910.—In exercise of the powers conferred by section 3 of the Bengal Motor Car and Cycle Act, 1903 (Bengal Act III of 1903), and in addition to the Rules issued under Notification No. 1180 J.D., dated the 22nd June 1908, hereinafter called the Motor Car Rules, 1908, the Lieutenant-Governor is pleased to make the following Rules for regulating the use of motor cabs in the Town and Suburbs of Calcutta and the town of Howrah:—

(1) These rules may be called the Motor Cab Rules, 1910, and shall be read as Part IV of the Motor Car Rules, 1908.

(2) For the purpose of these rules a motor cab means a light motor car as defined in the Motor Car Rules, 1908, used for the purpose of standing or plying for hire in any street or public place.

(3) On the registration of a motor car as a motor cab, a certificate of registration shall be granted by the Commissioner of Police in the form given in Schedule I to these Rules.

(4) Notwithstanding anything to the contrary in sub-clause (3) of Rule 2 in Part II of the Motor Car Rules, 1908, the fee payable for the registration of a motor car intended for use as a motor cab shall be Rs. 32, and no fee shall be charged for the registration of other motor cabs of the same type belonging to the same owner, provided the owner certifies in writing to the Commissioner of Police that such motor cabs are his property and conform in every respect to the type of the motor cab already registered.

(5) A license to drive a motor cab shall be in the form given in Schedule II to these ules, and the rules therein contained shall be read as a part of these rules.

(6) An applicant for a driver's license under these rules shall, before receiving such license, satisfy the Commissioner of Police that he is acquainted with the principal places and streets in and around Calcutta and Howrah, that he has a thorough knowledge of the prescribed rates for hire, and that he is in all respects a fit person to be the driver of a motor cab.

(7) The license of a driver may be cancelled or suspended or otherwise dealt with by the Commissioner of Police for any breach of these rules.

(8) No motor car shall be used as a motor cab unless fitted with a taximeter or approved mechanical device for automatically and visibly registering on each occasion the fare to be charged according to the rates for distance or time or a combination of distance and time. Every taximeter when in use shall be locked and sealed so that it may not be tampered with.

Every taximeter shall be fitted with an indicator or handle in the form of a flag on which shall be printed the words "for hire." The taximeter shall be so constructed that when the indicator is vertical the taximeter shall be out of action. Such indicator shall be so placed as to be clearly visible to any person outside of and in front of the vehicle, and to the hirer when inside.

The vertical position indicates that the vehicle is available for hire, and no driver shall without reasonable excuse refuse to accept a fare when the indicator is in the vertical position.

Any owner, driver, attendant or other person who shall break or tamper in any way with the seal placed on the taximeter, or who shall, with intent to deceive, tamper with the taximeter or the driving mechanism thereof, shall be deemed to have committed a breach of this rule.

(9) In every motor cab there shall be available for the inspection of customers a list of rates, and the fare charged for the hire of the motor shall not exceed the maximum fare calculated according to the scale of the rates set forth in the list as may be applicable.

(10) The driver of every motor cab shall, as soon as he is hired and no sooner, set the taximeter in motion, and upon the termination of the hiring shall immediately stop the same. If he neglect or fail to do so, he shall be deemed to have committed a breach of this rule. But if a motor cab is called from a garage or a stand to take up a passenger at any place less than 500 yards from the garage or stand, the taximeter shall not be set in motion until the motor cab shall arrive at such place and be ready to take up the passenger. Provided that in the event of a motor cab whilst hired being unable to proceed from any mechanical derangement or tyre failure, either temporarily or otherwise, the driver shall at once stop the mechanism of the taximeter as against the hirer and shall not restart the same until such time as the defect is remedied.

(11) A driver of a motor cab shall, in the absence of reasonable cause to the contrary, proceed to the destination named by the hirer by the shortest and quickest route.

(12) The brakes shall, as far as possible, be so affixed as to be capable of easy adjustment. At least one brake shall be so made as to be applied by the foot of the driver, and at least one shall act directly upon the road wheels.

(13) All brake and steering connections secured with bolts shall have such bolts secured with nuts, the same to be locked or pinned.

(14) Every precaution shall be taken by the owner to see that all parts of the mechanism of the car are periodically inspected and kept in proper working order and a register shall be kept of such inspections in a convenient form giving the particulars shown in Schedule III to these Rules. This register shall be open at any reasonable time to the inspection of the Commissioner of Police or any person duly authorized by him in that behalf. Any failure to maintain this register or to produce it when called for by lawful authority, shall be deemed to be a breach of this rule.

(15) No oil shall be allowed to drop upon the roadway, and where a tray or undershield is fixed below the mechanism of the car for the purpose of preventing this or for any other purpose, such tray or undershield shall be so placed or constructed that no petrol from the tank, supply pipe, or carburettor can collect therein.

(16) Tanks for petrol must be so placed that any overflow shall not fall on to nor soak into cushions, upholstery or floor mats in or about the body, but the filling nozzle shall be brought to some point outside the body. No petrol shall be poured into the tank whilst the engine is running or whilst any lamp is burning in or on any portion of the car.

(17) Every motor cab shall have at least one driving wheel fitted with an approved means of preventing or limiting side slip and shall carry at least one spare inflated tyre and rim or other approved device which can, if necessary, be quickly fitted to any wheel.

(18) Every motor cab shall be provided with a means of communication between passenger and driver.

(19) Where acetylene or other gas is used to light the carriage, the cylinders or vessels which contain the gas or in which it is generated, must be fixed outside in such a position as to minimize the danger of accidental ignition.

(20) No printed or written matter other than the sanctioned rates for hire or these rules shall appear on the outside of a motor cab or be carried by way of advertisement. Small advertisements of a pattern to be approved by the Commissioner of Police may, however, be exhibited within the cab.

(21) The doors, windows, seats, roof, springs, wheels, cushions, linings, panels, etc., and all furniture and appointment of a motor cab shall be in proper order and repair, the paint and varnish in good condition and the inside perfectly clean. The floor shall be covered with a mat of rubber, coir or other suitable material.

(22) The Commissioner of Police may prohibit the use of a motor cab which is in his opinion unfit to ply for hire, until such time as the defects are remedied to his satisfaction.

ENDORSEMENTS.

Municipal and Local.

NOTIFICATIONS.

Shahabad.

No. 812T.M.—The 12th September 1910.—It is hereby notified that, under section 27 of the Bengal Municipal Act, III of 1884, the Lieutenant-Governor is pleased to appoint Mr. J. A. M. Wilson to be a Commissioner of the Dumraon Municipality, in the district of Shahabad, *vice* Captain J. B. Rutherford, D.S.O., resigned.

No. 818T.-M.—The 13th September 1910.—In exercise of the powers conferred by clauses (*i*) and (*ii*) of sub-section (1) of section 69 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), and by clauses (*e*) and (*m*) of section 138 of the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885), the Lieutenant-Governor is pleased to direct that the following rules for the preparation, submission and execution of projects for water-supply, sewerage or drainage by local authorities shall be substituted for the like rules published with Government Notification No. 1712M., dated the 7th July 1906, at pages 111 to 113, Part IB of the *Calcutta Gazette* of the 11th idem, namely:—

RULES FOR THE PREPARATION, SUBMISSION AND EXECUTION OF PROJECTS OF WATER-SUPPLY, SEWERAGE OR DRAINAGE BY LOCAL AUTHORITIES.

Preparation of sketch of project.

1. (*1*) Whenever a local authority desires to undertake a project for water-supply or sewerage or a comprehensive scheme of surface drainage, it shall first cause to be drawn up a sketch of the project roughly showing its scope and approximate cost.

(*2*) Such sketch may be drawn up either by the Sanitary Engineer at the special request of the local authority and with the approval of the Sanitary Board and on payment of the fees prescribed in Rule 8, or by any firm or person approved by the Sanitary Engineer.

(*3*) The Sanitary Engineer shall, in all cases, act as adviser of the local authority.

Submission of sketch, statement and application.

2. When the sketch of the project has been drawn up under Rule 1, and it is estimated to cost Rs. 10,000 or more, or in the case of an estimate of less than Rs. 10,000 if the financial assistance of Government is desired, the local authority shall submit it to the Sanitary Engineer who shall make such recommendations as he may think fit. After the approval of the Sanitary Engineer has been obtained, the sketch project shall be submitted by the local authority to the Municipal Department of Government, together with a statement wherein shall be shown the amount of the funds available to meet the cost of the project, either from current revenue or by way of loan or from any other source.

In the case of schemes the total estimated cost of which is less than Rs. 10,000, not being part of a larger scheme and for which financial assistance from Government is not required, the sanction of Government need not be obtained, but if the local authorities so desire the scheme will be examined by the Sanitary Engineer.

Conditions precedent to grant of administrative approval.

3. In order to obtain administrative approval to the execution of the project the local authority shall satisfy Government—

(1) that the cost of maintenance of the projected work can be met by the local authority from revenue;

(2) that any loan required to meet the cost of the work can be repaid, together with the interest thereon, within the period that may be prescribed by the Government; and

(3) that the work can be done effectually in the manner and for the cost proposed.

Procedure after grant of administrative approval. Preparation of detailed plans and estimates.

4. When the administrative approval of Government has been obtained, and in no case before, the local authority may arrange for the preparation of detailed plans and estimates, and for this purpose may—

(a) cause the plans and estimates to be prepared by its own officers or by an officer specially appointed for the purpose and apply to the Sanitary Engineer for assistance in the selection and engagement of surveyors to carry out the work; or

(b) apply to the Sanitary Board for the services of the Sanitary Engineer; or

(c) apply to Government in the Public Works Department for the services of their officers; or

(d) apply to the District Board for the services of the District Engineer; or

(e) with the previous sanction of the Sanitary Board, entrust the work to a private firm of established reputation.

In cases of (a), (c), (d) and (e), the plans and estimates while in course of preparation shall be subject to the examination and control of the Sanitary Engineer.

Submission of detailed plans and estimates to Government through Sanitary Board.

5. The plans and estimates shall, on completion, be forwarded in duplicate to the Sanitary Board, together with a full report on the financial aspect of the scheme and the state of public feeling in regard to it, and, if a loan is required, with an application in the prescribed form. In the case of drainage schemes the estimates must be submitted in Sanitary Board's forms Nos. 21 and 22, copies of which may be obtained from the office of the Sanitary Engineer, and when the scheme has not been prepared in the Board's Office they shall be accompanied by full details of the calculations of the sizes and strength of the various works, and complete information as to the prices on which the estimates have been framed.

The Sanitary Board, after examining the plans, estimates, report and application, shall submit them to the Municipal Department of Government with an expression of their opi nion on the merits of the scheme as finally drawn up.

CONSTRUCTION.

Conditions as to detailed engineering supervision.

6. Where the cost of the projected work is estimated to amount to Rs. 10,000 or more, an adequate provision for detailed engineering supervision shall be a condition precedent to the grant of sanction by the Government.

In the absence of special sanction to the contrary, the local authority shall agree to such one of the following conditions as may be considered suitable in each case:—

(a) that the work shall be carried out by the Public Works Department if that Department can undertake it: in such cases an extra charge of 15 per cent. on the sanctioned estimates shall be made for supervision, unless the case is one of extraordinary difficulty, under which circumstances a higher charge may be imposed under the orders of Government; or

(b) that arrangements shall be made with the District Board for the carrying out of the work under the supervision of the District Engineer and his staff; or

(c) that the work shall be carried out under the supervision of an Engineer qualified for appointment as a District Engineer according to the rules under the Local Self-Government Act of 1885 (Ben. Act III of 1885) specially employed for the purpose; or

(d) that the work shall be carried out by a private engineering firm of established reputation:

Provided that the local authority shall not advertise for tenders or enter into any contract or agreement for the execution of any works in connection with schemes or parts of schemes which have been sanctioned by Government under conditions (b), (c) or (d), until the specification and form of tender for such contract have been examined and approved by the Sanitary Engineer. No tender or contract for any such work shall be accepted until it has been submitted to the Sanitary Board and they have approved the acceptance thereof;

and further provided that when the work is carried out under condition (d), it shall be supervised by an officer appointed for the purpose by the local authority with the approval of the Sanitary Board, and shall, while in progress, be periodically inspected by the Sanitary Engineer.

7. Where the estimated cost of works amounts to less than Rs. 10,000, the local authority shall report, for the information of the Commissioner of the Division, the agency by which it is proposed to have the works carried out, and shall follow the instructions issued by him in the matter.

Report by local authority to the Commissioner in case of small works.

FEES.

8. The following fees shall be leviable by the Sanitary Board from local authorities for the work specified against each :—

Fees.

(a) a fee of two per cent. on the estimated cost (excluding cost of surveys) of all projects and schemes for which detailed estimates and drawings have been prepared by the Sanitary Engineer ;

(b) a fee of one-half per cent. on the first Rs. 20,000, and one-quarter per cent. on the balance of the estimated cost of schemes and projects, the detailed plans and estimates of which are examined by the Sanitary Engineer ;

(c) a fee of one-half per cent. on the first Rs. 20,000, and one-quarter per cent. on the balance (approximate) of the estimated cost of all rough schemes and projects, whether drawn up or, at the request of Government, examined, by the Sanitary Engineer.

9. The following rates, payable in advance, may be charged by the Sanitary Board for the loan of sets of surveying instruments to Municipalities :—

Rates for loan of surveying instruments.

Purnea Collectorate, the 16th August 1910. A. H. VERNEDE, Collector.

NOTICE TO TENDERERS.

(SEE A. R. I., VOL. III, PARAS. 135 AND 136.)

SEALED TENDERS for the supply of the undermentioned supplies from 1st November 1910 to 31st March 1911 will be received by the Superintendent, Remount Depôt, Calcutta, up to 4 P.M. on the 9th October 1910.

II.—Forms of "Tenders" and Schedules" (I. A. F. Z2120, 2121 and 2122) of the stores for the supply of which tenders are invited are obtainable on payment at the rate of Re. 1 per set on application in writing, and samples of the articles to be supplied can be inspected at the depôt godown any day (Sundays and holidays excepted) between the hours of 10 A.M. and 2 P.M.

III.—Tenders will only be received in accordance with the conditions on these printed forms, which must be submitted in English, and should specify in words as well as in figures the rate at which each description of article named in them will be delivered. Fractional parts of pies in rates will not be accepted. Tenders must be duly signed and completed in accordance with the instructions they contain.

IV.—Tenders should be accompanied by a deposit in the form of a $\frac{\text{Presidency Bank}}{\text{Treasury}}$ Receipt or Government Promissory Notes, Provincial or Municipal debentures, or Port Trust bonds, as earnest-money, at the rate of 2 per cent. on the total value of the stores tendered for, subject to a minimum of Rs. 25, which deposit will be returned on acceptance or rejection of the tender. In the case of Promissory Notes being furnished they must remain in the name of the depositor.

V.—No security or deposit which the tenderer may have furnished in connection with a previous contract or on any other account can be accepted as earnest-money.

VI.—The approval or rejection of tenders rests with the Quartermaster-General in India, who reserves to himself the right of rejecting any tender, or any items in a tender, without cause assigned. The lowest tender will not of necessity be accepted.

VII.—Tenders will be opened at this office at 12 noon on Monday, the 10th October 1910. Tenderers are invited to attend.

VIII.—Parties tendering are particularly requested to give their addresses in full.

IX.—Any further information required can be obtained on application to this office between the hours of 10 A.M. and 4 P.M. (Sundays and holidays excepted).

X.—Tenders must be sent under a strong cover, securely fastened, sealed with a distinctive device and conspicuously marked "Tender for the supply of grain" and addressed to the Superintendent, Calcutta Remount Depôt, Babugarh (District Meerut), and not to any officer by name.

XI.—Tenders which do not comply with the above conditions will be rejected.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

Karachi harbour—Information with regard to Pilots.

No. 397 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1161 of 1910), are republished :—

Position.—Manora lighthouse, lat. 24° 47½′ N., long. 66° 58¼′ E.

Details.—Masters of vessels are advised that the best position in which to await the Pilot, during the S.W. monsoon, is with Manora lighthouse bearing N.E., distant about 2 miles. On no account should the lighthouse be brought to bear anything westward of North owing to the heavy rollers and swell on the edge of the flats.

Pilots will always be sent off as quickly as possible, but occasional delay must be expected in thick weather owing to the difficulty of sighting vessels from the Look-out station until they are close in.

Publication.—West Coast of India Pilot, 1909, page 334.

Authority.—Marine Survey of India, 19th July 1910.

FORMOSA, EAST COAST.

AUSTRALIA, EAST COAST.

Submarine cable between Mackay and Flat Top Island—Buoys replaced by beacons.

No. 399 (first publication).—The Portmaster, Brisbane, has given Notice (No. 7 of 1910) that on and after 1st September 1910, the two yellow buoys which at present mark the line of the Submarine Cable between Mackay and Flat Top Island will be removed, and two white triangular beacons with a red stripe painted down the centre of each will be substituted therefor. These beacons will be erected on the slope of the hill at the South-west end of Flat Top Island.

Masters of vessels are hereby cautioned not to anchor to the Southward of the line of beacons.

Chart affected, No. 347; "Australia Directory," vol. 2.

INDIA, WEST—Bombay coast.

Jaigarh Light—Character temporarily altered.

No. 400 (first publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 75M of 1910), are republished:—

Particulars.—Owing to Jaigarh outer Light having broken there will be a fixed white light instead of occulting.

RESOLUTION.

READ—

Letter No. 124, dated the 18th August 1910, from the Secretary, Bengal Smoke-nuisances Commission.

Read also—

The Annual Report of the Bengal Smoke-nuisances Commission for the year 1909-10.

The Commission held 12 meetings during the year. The Chief Inspector and Assistant Inspectors of Smoke-nuisances made more than 3,900 observations of smoke emission and more than 2,300 inspections of factories, in the course of which they tested 200 stoking appliances and furnaces. It is satisfactory to note that during the year the reduction in the average emission of offensive smoke continued.

2. There has been a large reduction in the number of statutory warnings issued, the number being only 43 as against 71 last year. These were mostly for raising chimneys. In five cases only had the owners to be prosecuted for inattention.

3. There were 51 prosecutions during the year for infringement of the provisions of the Act, in all of which convictions were obtained. Owing to an improvement of smoke prevention in the factories, the Inspectors were able to devote more time to the prosecution of the smoke-nuisance in such places as blacksmiths' shops, cooking shops, open coke ovens, etc., and with good results.

4. The substitution of gas and electric power for steam continued steadily, and the Lieutenant-Governor is glad to notice that during the year 146 electric, 1 oil and 6 gas motors have been fitted.

5. The Lieutenant-Governor is pleased to note that the public appreciate the relief that is being experienced in the mitigation of the smoke-nuisance, and also that the owners and managers of factories continue to give valuable assistance in the prevention of smoke.

6. The thanks of the Lieutenant-Governor are due to the President and members, and particularly to the non-official members of the Commission, for their administration of the Act during the year under review.

ORDER.—Ordered that a copy of the Resolution be forwarded to the Government of India, Department of Commerce and Industry; the President, Smoke-nuisances Commission; the Commissioners, Presidency and Burdwan Divisions; the Commissioner of Police, Calcutta; the Secretary, Bengal Chamber of Commerce; the Secretary, Calcutta Trades' Association, and the Honorary Secretary, Bengal National Chamber of Commerce.

Ordered, also, that the Resolution be published in the *Calcutta Gazette*.

PAN POISONING SCARE.

MUNICIPAL DEPARTMENT—MEDICAL.

No. 881T.—Medl.—The 17th September 1910.—The Report of the Committee appointed to enquire into the causes of the recent *pan* poisoning scare is published below for general information. It is hoped that the careful examination made by this very competent Committee will dispose finally of any apprehensions that may remain in the public mind. The thanks of the Lieutenant-Governor are due to the members of the Committee for their excellent Report and also to those who assisted them in their investigations, especially to Dr. Satya Saran Mitra, of Howrah.

By order of the Lieutenant-Governor of Bengal,

H. L. STEPHENSON,
Offg. Secy. to the Govt. of Bengal.

No. 2605, dated Calcutta, the 12th September 1910.

From—LIEUT.-COL. F. J. DRURY, M.B., I.M.S., Principal, Medical College, Calcutta,

To—The Under-Secretary to the Government of Bengal, Municipal Department.

(Through the Inspector-General of Civil Hospitals, Bengal.)

WITH reference to your letter No. 1464, dated the 29th August 1910, I have the honour to forward herewith the Report of the Committee appointed to investigate the causes of the recent *pan* poisoning scare. To this we append a note of the work done by the Chemical Examiner's Department in this connection.

REPORT OF THE COMMITTEE APPOINTED TO ENQUIRE INTO THE CAUSES OF THE RECENT *PAN* POISONING SCARE.

BY order of the Lieutenant-Governor of Bengal, conveyed in Municipal Department No. 1464Medl., dated 29th August 1910, this Committee was appointed with the following instructions:—

(*i*) To investigate every case possible, especially cases in which fatal results have been reported but which have not been brought to hospitals.

(*ii*) The enquiry should be directed to finding out—

(*a*) whether the symptoms can be traced to any and, if so, to which of the constituents of the *pan* as generally taken;

(*b*) if the symptoms are traced to any constituent of the *pan*, the particular variation in that constituent which has recently occurred, giving rise to these unusual cases;

(*c*) if the symptoms can be shown not to be due to any constituent of the *pan*, the cause to which they are due.

(*iii*) The report to be submitted within a fortnight and to be framed so as to be available for immediate publication.

2. The following members were appointed on the Committee:—

Lieutenant-Colonel F. J. Drury, I.M.S. | Major J. A. Black, I.M.S.
Dr. Haridhan Dutt.

3. We met together first on the 30th August 1910 in the Chemical Laboratory, and held all our meetings, six in number, there. We enquired into the ordinary constituents of prepared *pan*, besides *pan* leaf and betelnuts, as well as other substances which may be taken along with it.

4. As far as possible we investigated all alleged fatal cases of *pan* poisoning, and all such other cases as came within our knowledge.

5. We sent notices to the leading English and Indian newspapers asking them to advise householders to inform us of any cases occurring in their houses. Although the newspapers did as we requested, no response was made by any householder.

6. Samples of the various kinds of *pan* leaves and betelnuts were collected from the bazar, and a series of experiments were undertaken to discover which if any of these contain any poisonous principle: both ripe and unripe betelnuts were used. The varieties of betelnuts for experiment were from lots exposed for sale in the bazar, and also unripe nuts were specially procured.

7. We endeavoured to obtain information regarding the scare from Dacca, where cases of *pan* poisoning appear to have been first reported, but up to the time of writing we have had no reply to our letter.

8. We obtained the help of Dr. Satya Saran Mitra, a well known medical practitioner of Howrah, who had personally investigated a series of 34 cases of alleged *pan* poisoning, and we are very much indebted to him for his valuable information and assistance, as well as for his personal attendance at two of our meetings. Information was also collected from various consumers of *pan*. We availed ourselves of reports of cases referred to the Chemical Examiner, and cases treated in the Medical College Hospital, and in one instance of a *post-mortem* report by the Police Surgeon of a supposed fatal case.

(A) Alleged fatal cases of pan poisoning.

9. Five were reported in the newspapers, and we were enabled to enquire into each of these—

(*i*) Bungshi Sinduria, reported to have suddenly fallen down dead after chewing a *pan*. The body was sent by the Police to the morgue for a *post-mortem* examination, and we are indebted to Captain Moses, Police Surgeon, for a copy of his report. Death was found to be due to rupture of one of the great vessels of the heart, the result of old standing disease. This could of course be in no way connected with *pan* poisoning.

(*ii*) The wife of Baikantha Nath Ghosh, of Ghospara Lane, Bally, was reported to have died from *pan* poisoning. Dr. Satya Saran Mitra enquired personally into this case and found that the report was absolutely false. There was no entry in the burning ghat papers, nor in the police-station death register, and there was no one to be found in Bally corresponding to the description given of the husband of the woman reported to have died. These statements of Dr. Mitra were confirmed by personal enquiry by Dr. Dutt.

(*iii*) *and* (*iv*) Two fatal cases were reported in the *Statesman* and other newspapers as having occurred at Kohna, a village near Howrah. These cases were enquired into by Dr. Haridhan Dutt, and the report was found to be absolutely groundless, as no death had occurred in the village during the month of August 1910 from any cause whatever.

(*v*) A fatal case reported at Burashibtolla, British Chandernagore, was enquired into both by Dr. Dutt and Dr. Mitra and was found to be mythical.

10. Thus we have shown that there is no ground for believing that any of the reported fatal cases of *pan* poisoning were genuine.

(B) Non-fatal cases of alleged pan poisoning.

11. We enquired into certain cases that came under our own notice and some brought to our notice by other medical men, as well as 17 cases brought to the Medical College Hospital.

12. Except in one case, we cannot find that any serious objective symptoms came under the notice of any qualified medical man. This exception was a case for the report of which we were indebted to Dr. Jahar Lal De, M.B., of Hooghly. A woman, aged 38, with a strong history of hysteria, was suddenly seized with symptoms after chewing two *pans*. She felt burning and tingling in the mouth and throat with thirst and exclaimed that she felt she was dying, became unconscious and remained so, it is stated, for 48 hours: the pulse and respiration were frequent, pupils contracted and sensation to touch was lost. These symptoms can be accounted for by a hysterical attack, but after recovery of consciousness her throat was found by Dr. De to be inflamed and swallowing was difficult. Dr. De believes this to have been a case of narcotico-irritant poisoning and attributes the symptoms to *pan*. It is significant in this case that the symptoms disappeared for a period and then recurred: this is very suggestive of hysteria, as well as the loss of tactile sensation and other symptoms reported.

13. Dr. Haridhan Dutt gives the following account of a case which came under his notice:—

Kristodhan Dutt, of 4, Kapurtalla Lane, aged about 25, while chewing a *pan* at 10-30 P.M. on 19th August 1910, felt a sensation of burning and pricking both inside and outside the mouth; he felt giddy and said that he temporarily lost consciousness: he was made to swallow salt and water and vomited. At midnight he was removed to the Medical College Hospital, where the stomach pump was used: by an early hour the following morning he felt well and he was discharged at about noon, when he returned to his work as a shop assistant. His complaints in hospital were dryness of the throat and a tingling sensation of the tongue and palate, but no objective symptoms were observed. The constituents of the *pan* he chewed were—*Bangla pan* leaf, lime, catechu and *dokta* (tobacco): he stated he was accustomed to chew 25 to 30 *pans* with tobacco in them daily for the past eight or nine years. Samples of the betelnuts in his house were examined by Major Black, who found that an alcoholic extract of these was toxic for cats, producing symptoms of irritant poisoning, viz., vomiting, rapid respiration, salivation and weakness.

14. The following case also occurred in Dr. Haridhan Dutt's own practice, and is worthy of note. At 10 P.M. on 1st September 1910 he had an urgent call to see a Muhammadan woman said to be suffering from *pan* poisoning: he found that she had mild symptoms which he considered were consistent with those of mild tobacco poisoning. She admitted having chewed a *pan* containing tobacco and that she was in the habit of chewing tobacco freely.

15. A case of *pan* poisoning was reported in the *Bengalee* of 2nd September 1910 as having occurred in the University Law College mess at No. 42, Harrison Road. This was enquired into personally by Dr. Dutt, who found that the report was without any foundation whatever; and at his suggestion the report was contradicted in the *Bengalee* of 4th September 1910 It would appear that some mischievous person or persons sent this report to the paper with a view to creating a scare.

16. Dr. Satya Saran Mitra's observations furnish the following interesting facts :— In two cases well known disease conditions (Urticaria and orchitis) were mistaken for *pan* poisoning: three cases were instances of pure hysterical attacks: in two cases there was simple fright: one case was due to *siddhi*: three patients ascribed their symptoms to *dokta* and *surti* (preparations of tobacco): in three cases the pieces of betelnut used in the *pans* were found by him to be unripe Dr. Mitra is of opinion that the symptoms described can all be attributed to known effects produced at times in certain individuals by unripe betelnuts or by *dokta*: he does not consider that any toxic symptoms are ever produced by *pan* leaves, and informs us that it is quite common to find small worms and mould on decomposed *pan* leaves, but that the decomposed parts of such leaves are always rejected: the worms and mould therefore recently found on the leaves can have no relation to the production of symptoms.

(C) Cases treated in the Medical College Hospital.

17. An analysis of the notes of 17 cases treated between the 20th August and 6th September 1910, which were kindly furnished by Captain Stewart, Resident Physician, shows that eight of the cases were males and nine females Fifteen cases were brought in between 20th and 27th August, one on the 30th August and one on the 6th September

18. The following subjective symptoms were complained of :—

Tingling of mouth and throat	In 11 cases.
Dryness ditto	„ 5 „
Giddiness	„ 5 „
Vomiting	„ 4 „
Unconsciousness	„ 4 „
Choking	„ 3 „
Weakness	„ 2 „
Tingling all over the body	„ 1 case.
Salivation	„ 1 „
Diarrhœa	„ 1 „
Intoxication	„ 1 „

None of these could be confirmed by the medical officers who treated the patients, but the following objective symptoms were observed by them :—

Frequency of pulse	In 8 cases.
„ of respiration	„ 2 „
Excessive perspiration	„ 2 „
Dilation of pupils	„ 1 case.

Five of the patients admitted having taken tobacco with the *pan*, one *siddhi* and one alcohol.

19. No patients were seen in an unconscious condition, and there were no signs of congestion of the mouth or throat in any case. no vomiting was seen in any case except as the result of treatment.

20. In ten cases the stomach was washed out by the stomach pump and in three cases emetic medicines were used. Tho' patients expressed themselves as being greatly relieved after the use of the stomach pump: the stomach washings were sent to the Chemical Examiner, but in no instance was any poisonous material found in them. The opinion formed by Captain Stewart, who saw all the cases, was that the symptoms could in most cases be explained by mild tobacco poisoning.

(D) Pan leaves

21. In order to investigate whether any poisonous principle is contained in *pan* leaves, we procured a number of samples of the kinds ordinarily in use from the bazar: these kinds are :—

Bangla.	*Karpur Kath.*
Sanchi.	*Mitha.*

These, as well as samples sent from elsewhere, were examined in the Chemical Department under the supervision of Major Black, and an account of the experiments is appended. No deleterious effects were produced by any of these either in the members of the Laboratory staff, who ate them freely, or in cats, to which extracts from the leaves were administered.

22. Many low microscopic organisms were found on examination of the leaves; but these were not of a pathogenic nature and no importance can be attached to their presence. In a few cases where decomposition of the leaves was taking place small worms were found; but we are of opinion that these are commonly found on such leaves; they have been recently noticed more by the people, simply because their attention has been directed to the subject and they are more minutely searched for.

(*E*) *Betelnuts* (*supari*).

23. It appears to be a well recognized fact that betelnuts occasionally cause mild toxic symptoms, known in Bengali as *supari laga*. We obtained samples of betelnuts which were for sale in the bazar of the following varieties ordinarily in use, viz —

Deshi.	*Chiki*
Jahaji.	*Kata.*

Unripe nuts.

These, as well as samples from other sources, were subjected to examination by Major Black and his assistants, and an account of their experiments is appended. Pieces of betelnut sent from Backergunge in connection with two alleged cases of *pan* poisoning proved toxic for cats, but on repeating the experiment in the same way, except that the nuts were previously boiled, it was found that no toxic effects were produced in a cat: administration of the water in which the betelnuts had been boiled also failed to show any toxic effects. It therefore appears that the toxic principle contained in the betelnuts is destroyed by heat.

24. In Dr. Dutt's case, Kristodhan Dutt, noticed above, the betelnuts obtained from the patient's house proved to be toxic, and similarly a sample of nuts obtained from the bazar was toxic for cats, but in neither of these cases could it be definitely ascertained whether the nuts were ripe or unripe. Nuts, however, obtained from the bazar in a manifestly unripe condition were shown to be toxic for cats, producing symptoms like those in the Backergunge case.

25 It has been suggested to us that worm eaten betelnuts have produced the toxic symptoms, but none of the nuts which caused toxic symptoms in cats were found to be worm-eaten.

(*F*) *Prepared pan.*

26. We made a careful enquiry into the constituents of prepared *pan* and find that the ordinary constituents are—

Pan leaf.	Lime.
Catechu.	Betelnut in slices.

Spices (cloves, cardamoms, coriander, &c.).

27. We find that it is a common custom, even in the most respectable Bengali households, for the ladies to prepare the *pans* for the use of the family with their own hands. Thus each member of the family partakes of the same kind of *pan*. But we have heard of no instance in which more than one member of a family was affected with poisoning symptoms at the same time. This leads us to the belief that certain individuals have an idiosyncrasy to the toxic effects of the betelnut. The following instance is brought to light by Dr. Mitra. A mother, her daughter and daughter-in-law, all partook of the same kind of *pans* together, but the daughter-in-law also chewed tobacco along with her *pan*; the daughter-in-law had mild toxic symptoms which were set down to *pan* poisoning, but the other two ladies had no symptoms. Dr. Jogendra Nath Palit, of Chandernagore, who treated the case, was of opinion that the symptoms were caused by tobacco. We think it very probable that many cases of a similar nature have occurred. With the exception of betelnut we have absolutely no evidence that any of the ordinary constituents of *pan* are capable of causing toxic symptoms.

Occasional constituents of *pan*—

Dokta, *surti* and other preparations of tobacco.
Siddhi (very rare).
Cocaine.

28. We find on enquiry that tobacco chewing, both in *pan* and separately, has of late increased among certain sections of the people, even among the ladies, and we are of opinion that in some cases the symptoms ascribed to *pan* poisoning should, with more correctness, be ascribed to tobacco; at least four cases with toxic symptoms in persons who had taken tobacco in the *pan* came under our notice. The symptoms described in some of the cases correspond to the well-known symptoms of tobacco poisoning, viz , giddiness, weakness, trembling of the limbs, nausea, vomiting and purging, and, moreover, in several instances the patients themselves attributed their symptoms to the use of tobacco.

29. *Siddhi* is used only very rarely as an added constituent of *pan*. One case only came under our notice—a woman admitted into the Medical College Hospital for *pan* poisoning: she admitted having partaken of *siddhi* freely. Cocaine.—We have no direct evidence of this having been used in any of the alleged cases of *pan* poisoning which came to our knowledge: but we are aware that it is used occasionally in *pan*, and are of opinion that the symptoms complained of in some cases correspond to those which are caused by cocaine.

(G) Consumers and sellers of pan.

30. We owe much of the information that we have put in this report to these people as regards the varieties of *pan* leaves and betelnuts, the constituents of the prepared *pan* and the mode of preparation. It was noticed by us that since the formation of our Committee the cases of poisoning had become less frequent, and we enquired into the cause of this. Some consumers explained that the cause of this lessening was the fact that people had to a great extent given up chewing *pan* since the scare arose. But an enquiry from the *pan* sellers did not corroborate this statement: they stated that though their trade was dull during the month of August, yet towards the end of the month it had become brisk again, indicating that people were returning to their *pan* chewing; but coincidently with this briskening of trade there has been no recurrence of the *pan* poisoning cases.

(H) Newspapers.

31. In spite of the eight newspapers to which we wrote having informed the public of the appointment our Committee and advised householders to furnish information regarding cases of *pan* poisoning occuring in their houses, to our disappointment no householder has come forward to our assistance. The fact is that very few cases have occurred since our Committee was formed. We think that the newspapers have been to a considerable extent responsible for spr ading and keeping up the scare by reporting a number of cases, fatal and non-fatal, which had no foundation in fact, as, for instance, the two fatal cases at Kohna and the non-fatal case in the Law College mess noticed above.

(I) Conclusions.

32. As the result of our enquiries into the *pan* poisoning scare we have arrived at the following conclusions:—

(*i*) We have absolutely no evidence of any fatal case having occurred.

(*ii*) With one doubtful exception, we have not been able to obtain any evidence of serious toxic symptoms having been observed by any qualified medical man.

(*iii*) Symptoms of mild narcotico-irritant poisoning have been observed by us in a limited number of cases.

(*iv*) We are convinced that toxic symptoms have never been caused by the *pan* leaves, nor, with the exception of betelnut, by any of the other ordinary constituents of the prepared *pan*.

(*v*) We have come to the conclusion that certain betelnuts, particularly when consumed in the unripe condition, are capable of causing mild toxic symptoms, but that if the betelnuts are sufficiently matured by keeping or subject to boiling, no toxic effects will result.

(*vi*) In our opinion the above (No. 5) accounts for the symptoms described in certain cases.

(*vii*) We consider that in certain other cases the symptoms complained of are to be attributed to the use of tobacco.

(*viii*) We are of opinion that, though no direct evidence is available, in some cases the symptoms are attributable to cocaine.

(*ix*) In certain other cases we believe that the symptoms described were entirely of a hysterical or neurotic character.

(*x*) And we believe that mild cases of *pan* poisoning have been by no means unknown in the past (Bengali—*supari laga*), but that exaggerated attention has been drawn to them by the present scare, where formerly they would not have been remarked.

33. We take this opportunity to express our best thanks to the whole staff of the Chemical Examiner's Department for the valuable aid which they have afforded us, and of which we have freely availed ourselves. A separate note of the work done by this Department in connection with the recent *pan* poisoning scare is appended.

CALCUTTA, *the 12th September 1910.*

NOTES ON WORK DONE IN THE CHEMICAL EXAMINER'S DEPARTMENT, CALCUTTA, IN CONNECTION WITH THE RECENT *PAN* SCARE.

1. *Pan leaves.*—A large number of the leaves of *Piper betle* have been examined in this laboratory in connection with the recent *pan* scare. Some of these were forwarded for examination from Calcutta and elsewhere in cases of alleged "*pan* poisoning," others were obtained by members of the staff from the bazar, while specimens of all the varieties of leaf ordinarily used in preparing *pan* and obtainable in the bazar were specially procured by us.

2. All the leaves were carefully examined microscopically. The expressed juice of many of the leaves, or an extract, made by exhausting the leaves with alcohol, evaporating the alcohol by heat, and taking up the residue with a little water, was administered to a healthy cat. Finally, all varieties of the leaves were freely eaten by members of the staff, who voluntarily offered themselves as subjects for this experiment.

3. Microscopically, large numbers of bacteria, amœbæ, paramœcia, and other low forms of life were observed, and in a few cases, where decomposition of the leaves had commenced, a number of small nematode worms were present.

4. No deleterious effects from the juice or extract of the leaves was observed in the cats, nor did those members of the staff who ate the leaves develop any toxic symptoms whatever.

5. From these experiments it seems evident therefore that no deleterious effects can be attributed to the *leaves*.

6. Betelnuts (*supari*) It has long been known that the nuts (seeds) of *Areca Catechu* occasionally give rise to toxic symptoms.

7. In the "Pharmacographia Indica" the authors state—

"Hindu Medical writers describe the fresh nuts as intoxicating and productive of giddiness. The fact that the use of fresh betelnuts gives rise to the sensation of strangling and giddiness is well known in the East, and it has also been observed that the nuts of certain trees in most betel plantations retain their poisonous properties when dried. These trees cannot be distinguished from the others, so that not infrequently accidents happen from these nuts becoming mixed with the produce of the plantation before their presence has been detected. The poisonous properties are destroyed by heat, and consequently many people only use the cooked or red betelnuts of commerce to avoid the possibility of accident."

8 The authors also quote a description of those poisonous nuts by Rumphius, of which the following is a translation :—"There are also a great many of the fresh (recentes) nuts, which have the property that they intoxicate (inebrient) the consumers and make them giddy (vertiginosos), just as tobacco affects those who are not accustomed to its use." Rumphius goes on to state that even some of the mature nuts cause in novices so much difficulty in breathing and oppression of the chest that they seem to be choked. He discusses whether these poisonous nuts are to be regarded as a distinct species, and gives the opinion that they are merely a variety and "degeneration" of the known species, that they are found "here and there" on the trees, although sometimes it is observed that *all* the nuts of certain trees have this evil property (malignitatem).

9. The authors of the "Pharmacographia" add that the above facts "seem to indicate the return of a few plants to an original wild form now extinct, especially as the *fresh nuts of the best trees produce similar effects in a less degree.*"

10 From the enquiries of the Committee it is evidently the custom in Bengal, after the nuts are picked, and before using them, to expose them, usually on the roof of the house, for a period of several months, in order to mature them, and it is a matter of common knowledge, or at all events common belief, that toxic symptoms such as those described (giddiness, difficulty in breathing, etc.) will occur if the nuts are used before being so matured. Several such cases have been described to us, and there seems no reason to doubt that they occur. Further, cases of idiosyncrasy or individual susceptibility have come to our knowledge, where toxic symptoms have been caused in certain persons by nuts which to others were innocuous. It seems evident therefore that the occurrence of mild toxic symptoms from eating betelnut is a well known fact.

11. The first case of alleged *pan* poisoning officially referred to the Chemical Examiner's Department was forwarded on 28th July by the Civil Surgeon of Backergunge. Two adult persons were said to have shown symptoms of poisoning after eating *pan-supari*, and some of the leaves, slices of betel-nut, lime and catechu used in preparing the *pan-supari* were sent for examination.

12 The symptoms described were:—

"Immediate sense of burning and constriction of mouth and gullet, followed almost immediately by dizziness, nausea, finally by unconsciousness. No convulsions."

13. This case was investigated by Rai Chunilal Bose Bahadur, Additional Chemical Examiner, who furnishes the following notes as regards the nuts:—

"An alcoholic extract of two drams of the Areca nuts produced severe symptoms of poisoning in an adult cat. The animal vomited several times, suffered from great

weakness of the limbs, hurried breathing, slight dilatation of the pupils, and extreme general exhaustion. The animal slowly recovered in four or five hours. There were no convulsions, no insensibility, no diarrhœa."

14. No poisonous substance could be detected in the leaves, lime and catechu.

15. The above experiment was repeated on behalf of the Committee on 30th August, with the same nuts, but on another cat.

16. Two drams of the nuts were exhausted with rectified spirit, the spirit evaporated by heat, and the residue taken up with a little water and introduced into the stomach of the cat. Similar symptoms to those described above were observed, viz., vomiting, hurried respiration, weakness, and slight dilatation of the pupils. These symptoms passed off in a few hours.

17. In order to test whether the toxic principle was destroyed by heat, as stated by the authors of the "Pharmacographia," a further experiment was made with the same nuts. A similar quantity of the nuts (two drams) was repeatedly boiled in water. An alcoholic extract of the boiled nuts, made as before, was then administered to a cat, and *no poisonous symptoms followed*, nor was the administration of the water in which the nuts had been boiled followed by any toxic symptoms. Evidently, therefore, the toxic principle was not simply extracted by the water, and it seems probable that, as stated in the "Pharmacographia," it is in some way decomposed by heat.

18. Having thus established that poisoning may occur from betelnut, is was then proposed to effect a chemical separation of the various active principles of the nut, in order to determine, if possible, to which of these the toxic effects were attributable. It was soon apparent, however, that such an investigation, involving lengthy and complicated chemical processes, could not be carried out in the short time at the disposal of the Committee, and all that could be attempted was to procure samples of the various kinds of nut in ordinary use and ascertain whether toxic effects were peculiar to any special variety, or to any particular condition, such as the ripeness or unripeness, of the nut.

19. For this purpose, mature nuts of all the ordinarily used varieties were procured by Dr. Haridhan Dutt, also a quantity of unripe ones.

20. Dr. Dutt was also successful in procuring a sample of the nuts eaten in the case of poisoning treated in the Medical College Hospital (Kristodhan Dutt). These and various other samples were examined in the same way as in the Backergunge case. The results may be summarised as follows:—

(*i*) In no case when the nuts were known to be mature did toxic symptoms occur.

(*ii*) In the case of the unripe nuts procured by Dr. Dutt, and in the case of some unripe nuts obtained from the bazar, toxic symptoms occurred similar to those observed in the Backergunge case.

(*iii*) The nuts obtained in the case of Kristodhan Dutt caused toxic symptoms.

(*iv*) A sample of nuts obtained from the bazar cased toxic symptoms.

21. In cases (*iii*) and (*iv*) it was impossible, even for those well accustomed to the use of betel, to state definitely whether the nuts were ripe or unripe. The toxic symptoms were the same in every case, though they varied somewhat in severity, so that there seems to be some ground for thinking that immaturity is the dominant factor in toxicity, although it is possible, as stated by Rumphius, that certain nuts, or even *all* the nuts of certain trees possess this "malignity."

22. No more definite opinion can be given on the results of the small number of experiments that could be made in the time laid down for our enquiry. It must be remembered that it required over 24 hours to prepare each extract, and that no second experiment can be made on a cat until the animal has entirely recovered from the effects of a previous one. I may add that all our cats made speedy and complete recoveries from the temporary discomfort to which they were subjected, and none of them seem in any way the worse for it. I may also point out that I myself, as well as Dr. C. L. Bose and the other members of my medico-legal staff, to whom my hearty thanks are due for their invaluable help in this enquiry, voluntarily carried out similar experiments on our own persons. That no unpleasant results followed in our case is probably due to the fact that the doses taken by us were much smaller relatively to body-weight than in the case of the cats.

23. Our conclusions may be briefly summarised thus:—

(*i* Betelnut occasionally gives rise to mild narcotico-irritant poisoning, and the fact has been well known to the users of betel from early times.

(*ii*) Probably some of the cases of alleged *pan* poisoning were due to betelnut poisoning, the symptoms described being similar to those of the latter.

(*iii*) Immature betelnuts show this toxic property.

(*iv*) Possibly certain nuts which are not immature also possess toxicity.

(*v*) The affection is a mild and transient one, and no fatal case is on record.

(*vi*) The toxic principle is probably decomposed by heat.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR AUGUST 1910.

I. *Character of the season.*—The rainfall was general all over the Province. It was in excess of the normal in Birbhum, Howrah, Nadia, Murshidabad, Saran, Sonthal Parganas, Sambalpur, Hazaribagh and in South Bihar and below the average in the remaining districts. The rainfall statement showing the average rainfall during the month in different districts is appended.

II. *Progress of agricultural operations.*—Weeding of *bhadoi* crops and transplantation of winter rice continued. Harvesting of jute was continued. Insufficiency of rain for transplantation was still felt towards the end of the month in Bankura, Midnapore, Khulna and Puri. There was, however, good rain in the beginning of September, and cultivators were able to transplant more land in those districts.

III. *State of standing crops.*—The standing *bhadoi* crops and the *aman* paddy are doing well, except in the flooded tracts, where the crops were considerably damaged.

IV. *Prospects and the probable outturn of harvests.*—The outturn of the autumn harvest is fair in most districts. In Patna, Murshidabad, Darbhanga and Monghyr the crop is reported to be very poor. The outturn of the crops for the Province as a whole is estimated at about 85 per cent. of the normal. The *aman* paddy is doing well, except in flooded tracts. Prospects are on the whole fair.

V. *Damage to crops.*—The heavy rain at the end of July and in the beginning of August caused high floods in Darbhanga, and the standing crops were seriously damaged. Damage by floods varying in extent was reported from other districts of Bihar and also from Nadia, Murshidabad, Cuttack and Puri. Insects did some damage to jute in Nadia and winter and autum rice in Muzaffarpur and Cattack.

VI. *Condition of agricultural stock.*—The condition of cattle was, on the whole, satisfactory. Cases of cattle-diseases were reported from Midnapore, Howrah, the 24-Parganas, Murshidabad, Jessore, Patna, Gaya, Angul, Puri, Sambalpur, Hazaribagh, Ranchi, Manbhum and from all the districts of Tirhut and Bhagalpur Divisions except Saran and Darjeeling.

VII. *Failure of pasturage and fodder.*—Fodder and water-supply was sufficient throughout the Province.

VIII. *Prices of food-grains.*—Prices of food-grains are lower than in the corresponding period of last year. The price of common rice rose in five districts and fell in 15 during the second fortnight of the month under review.

IX. *Condition of agricultural people.*—The condition of agriculturists is, on the whole, good.

* The report is for the week ending the 10th September 1910.

GENERAL SUMMARY.—The rainfall was fairly general over the Province. The fall was heavy in Darjeeling and Cooch Behar, generally moderate in Bhagalpur, Orissa and Chota Nagpur Divisions, and in Birbhum, 24-Parganas, Patna, Gaya, Shahabad, Saran, Darbhanga and light elsewhere. More rain is wanted in Bankura, Midnapore, Hooghly, Howrah, 24-Parganas, Khulna and Purnea. Harvesting of jute and other *bhadoi* crops is going on. Transplantation of winter paddy still continues in some districts. The standing crops are in good condition in most districts. Damage by insects to paddy is reported from Sambalpur. The price of common rice shows a downward tendency. It has risen in Nadia, Jessore, Khulna and Darbhanga and has fallen in Burdwan, Midnapore, Patna, Gaya, Shahabad, Saran, Champaran, Monghyr, Bhagalpur, Sonthal Parganas, Balasore, Palamau and Manbhum. Cattle-disease is reported from Birbhum, Midnapore, 24-Parganas, Jessore, Patna, Saran, Champaran, Muzaffarpur, Bhagalpur, Purnea, Sonthal Parganas, Angul, Puri, Sambalpur, Hazaribagh and Ranchi. The fodder and water-supply is sufficient throughout the Province.

The average fall of the corresponding period for 24 years, Surveyor-General's Office	54·54

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All thermometers are verified, and the readings have been corrected to a standard constructed and verified at Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables compute the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is f hours preceding 8 A.M. of that day.

o, overcast; d, drizzling rain; p, passing temporary showers; t, thunder.

NOTIFICATIONS.

Dwarka Nath Pal Vedic Competition Fund.

No. 3678.—The 26th September 1910.—It is hereby notified that the Lieutenant-Governor of Bengal in exercise of the powers conferred by sections 4 and 5 of the Charitable Endowments Act 1890 (hereinafter called the said Act) upon the application and with the concurrence of Babu Kaliprasanna Bhattacharyya, M.A., Principal of the Sanskrit College, Calcutta, doth hereby order and direct that the Government securities of which the particulars are contained in the first Part of the Schedule hereunder written shall as from the date of the first publication hereof vest and be thenceforth vested in the Treasurer of Charitable Endowments for the territories subject to the Government of Bengal and be held by him and his successors, subject to the provisions of the said Act and any rules from time to time framed thereunder by the Governor-General in Council, upon trust for ever

thereafter to receive the interest of the said securities when and as the same shall become payable and from time to time apply the same in the terms of the scheme for the creation of an endowment for the maintenance of an annual competition amongst the Hindu inhabitants of Bengal for a prize for the best essay on a subject connected with the Vedas, the particulars of which scheme are contained in the second part of the said Schedule hereunder written. *And it is hereby further notified* that the said scheme shall come into operation on the vesting of the said securities in the said Treasurer of Charitable Endowments.

THE SCHEDULE ABOVE REFERRED TO.

Part I.

Government Promissory Notes of the 3½ per cent. stock of 1865 to the amount of Rs. 7,700 held by the Accountant-General, Bengal, under Chapter XI of the Civil Account Code.

Part II.

1. The endowment shall be called "the Dwarka Nath Pal Vedic Competition Fund" and its object is and shall be the encouragement of Sanskrit learing in Bengal.

2. The Administrator to be appointed under section 5 (1) of the Charitable Endowments Act 1890 to administer the property vested by the above Notification shall be the Principal of the Sanskrit College for the time being, hereinafter referred to as "the Administrator."

3. The interest of the securities specified in the first part of this Schedule shall be paid by the Treasurer of Charitable Endowments to the said Administrator every second year who shall apply the same in manner hereinafter appearing

4. The Administrator and the Advisory Board to be appointed as hereinafter mentioned shall once in every two years promote a competition for a prize of Rs. 500 payable out of the said yearly income of the said fund to the author of the best essay on some subject connected with the Vedas as hereinafter mentioned. The subject shall be selected by the Administrator and the said Advisory Board and particulars and rules of the competition shall be published by them in the Official Gazette and such other newspapers as they may think proper, and such particulars and rules may also be circulated by them in any other manner they may think fit as funds will allow. The first publication in the Official Gazette shall be at least 18 months before the date for sending in essays which shall be the 1st day of March in each alternate year.

5. The competitions shall be limited to Hindu inhabitants of Bengal, irrespective of caste or age and the term "Bengal" shall include all the territories subject to the Lieutenant-Governor of Bengal and the following portion of the province of Eastern Bengal and Assam, namely, Dacca, Rajshahi and Chittagong Divisions and the district of Sylhet. The Administrator and the said Advisory Board may themselves award the prize, or may appoint an Honorary Examiner or Honorary Examiners.

6. The prize shall not be awarded to the author of any essay unless such essay furnishes evidence of research or of special investigation or embodies useful suggestions relating to the subject. The language may be either Bengali or Sanskrit or English.

7. Candidates shall be required to send in essays to the Administrator in a sealed cover bearing a *nom-de-plume* or motto, and enclosed therein they must send additional sealed covers bearing such *noms-de-plume* or mottoes on the outside and containing within their true names and addresses. The name of the successful competitor shall be published in the Official Gazette. The sealed covers containing the true names of unsuccessful competitors shall be kept for three months from the date of publication of name of successful competitor and if within that time unsuccessful competitors desire their essays to be returned such essays shall be returned on their applying to the Administrator stating their *noms-de-plume* or mottoes. All essays and covers in respect of which no such application is made shall be destroyed after the expiration of the said period.

8. The successful competitor shall be required to publish his essay at his own expense and to supply fifty printed copies thereof to the Administrator before payment of the prize is made. The award shall be made as soon as conveniently possible and payment shall be made on receipt of such printed copies.

9. If in any year no competitor evinces sufficient merit to entitle him to the prize the amount thereof may be held over for a second prize in a subsequent year or may be otherwise applied in the discretion of the Administrator and the said Advisory Board in some other manner for the encouragement of Vedic study.

10. Any surplus income in any year may in the discretion of the Administrator and the said Advisory Board be applied either in increasing the amount of the prize for the year or in some other manner for the encouragement of Vedic study.

11. The Lieutenant-Governor of Bengal or such person as he may authorise in that behalf may from time to time appoint persons to form an Advisory Board for the assistance of the Administrator in carrying out this scheme and in awarding the prize and may from time to time make and alter rules as to the respective powers and duties of the Administrator and such Board, and may also remove any person from the Board.

12. The first competition shall be held in the year 1912.

No. 3722.—The 26th September 1910.—The following is published for general information.

W. R. GOURLAY,
Offg. Secy. to the Govt. of Bengal.

No. 2831—42.

Extract (paragraphs 1 and 2) from the Proceedings of the Government of India in the Home Department (Public), under date Calcutta, the 5th December 1899.

RESOLUTION.

THE Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject, and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, in the form appended to this Resolution, signed by the head of the district (in a Presidency town, the Commissioner of Police) in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer (in a Presidency Town, the Commissioner of Police) or Political Officer, as the case may be.

FORM OF CERTIFICATE OF IDENTITY.

1. Name of applicant ———
2. Father's name and caste ———
3. Residence ———
4. Age of applicant ———
5. Nationality* of applicant ———
6. Social and pecuniary status of father (or guardian) ———

* *i.e.*, whether a British subject by birth or by naturalization (or a subject of a Native State).
† Countersignature of the District or Political Officer should be obtained on certificates signed by Heads of Schools or Colleges.

No. 3679.—The 26th September 1910.—In exercise of the power conferred by clause (*a*) of sub-section (*3*) of section 3 of the Sonthal Parganas Settlement Regulation (III of 1872), the Lieutenant-Governor is pleased to declare that the Indian Emigration Act, 1908 (XVII of 1908), shall be deemed to be in force in the Sonthal Parganas.

Sonthal Parganas.

No. 3732.—The 26th September 1910.—It is hereby notified for general information that under the powers conferred on him by section 9 of the Indian Census Act (Act XVI of 1910), the Lieutenant-Governor directs that in cases where it is likely that a more accurate record will be obtained if the Census Schedules are filled in by the occupier of a dwelling-house or any specified part thereof rather than by the Enumerator of the block, the Enumerator or other Census Officer deputed for the purpose shall, a few days before the Census, leave at the house of each such person a household schedule in the form annexed. It will be the duty of the occupier to fill in correctly all the columns of the said schedule for all persons present in his house on the night of the 10th March 1911 (except Indian servants who will be dealt with by the Enumerator) and to make over the same to the Enumerator or other Census Officer when he calls for it on the 11th March 1911. The instructions for filling in the Schedule are printed on the back of the same. Any further explanations that may be required will be furnished by the Census Officer concerned:—

(FOR EUROPEANS AND EURASIANS.)

Instructions.—The schedule on the reverse is to be filled up by the head occupant of the house or tenement, for all Europeans and Eurasians stopping in the house or tenement on the night of the 10th March, counting also as present persons ordinarily residing in the house but absent for a few hours on duty and still taking their meals from the house. The head occupant aforesaid should deliver or cause to be delivered the schedule, duly filled up and signed, to the Enumerator who will call for it on the morning of the 11th March. Every facility and aid is requested for the Enumerator, who will probably make two visits in order to take the census of the native servants and their families residing on the premises.

Failure to fill the schedule up correctly is an offence under the Census Act and is punishable with fine.

NOTIFICATION.

No. J.829—11-10.—The following draft bye-laws framed by the Champaran District Board under sections 139 and 140 of the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885), are published for the information of persons likely to be affected thereby.

2. The draft bye-laws will be taken into consideration on or after the 6th November 1910, and any objection or suggestion which may be received by the undersigned before that date will be duly considered:—

Draft Bye-laws.

BYE-LAWS MADE BY THE CHAMPARAN DISTRICT BOARD UNDER SECTIONS 139 AND 140 OF THE BENGAL LOCAL SELF-GOVERNMENT ACT OF 1885 (BEN. ACT III OF 1885).

Definitions.

Definitions.

1. In these bye-laws, unless there is anything repugnant in the subject or context,—

(*1*) the word "cattle" has the same meaning as in the Cattle-trespass Act, 1871; I of 1871

(*2*) "reserved tank or well" means a tank or well which the District Board has set apart under section 90 of the Bengal Local Self-Government Act of 1885, by public notice, for the supply of water for drinking and for culinary purposes, and includes any reservoir, or part of any river, *khal* or other channel so set apart; and a notice-board on the edge of a reserved tank or well, containing the words "reserved tank" or "reserved well," or words to that effect, shall be deemed to be sufficient notice for the purpose of this definition; and Bengal III of 1885

(*3*) the "slopes" of a reserved tank or well include all places from which water can flow directly into such tank or well; and

(*4*) "road" means a road vested in, or under the control and administration of, the District Board or a Local Board; and includes—

(*a*) a village road;

(*b*) the slope, berm, borrow-pits and side-drains of a road; and

(*c*) all land vested in, or under the control and administration of, the District Board or a Local Board, and attached to a road.

Roads, Drains, Bridges, Canals and Embankments.

Encroachment or obstruction on a road.

2. (*1*) No person shall encroach on any part of a road by cultivating crops thereon.

(*2*) No person shall, on any road,

by means of any building, fence, pit, embankment or ditch, or any other obstruction, or by means of any cut, drain or water-course intended for the purpose of drainage or irrigation, or by exposing thereon any goods for sale or by placing thereon any substance or material,—

(*a*) Without the permission of the Chairman or Vice-Chairman of the District Board or a Local Board, or the District Engineer,

make or cause any encroachment, or

(*b*) obstruct traffic, or

(*c*) cause any inconvenience to passengers, or

(*d*) hinder or impede the flow of water.

Sale, collecting or gathering of articles in vicinity of road.

3. No person shall expose or place any article for sale in any bazaar or market in the vicinity of any road, or collect or gather any articles in the vicinity of a road so as to interfere with the traffic of the road.

Cutting of plants, trees or hedges obstructing road or drain.

4. Any person in possession of, or having control over, any plants, trees or hedges which obstruct, overhang or overshadow any road, or any public drain or sluice, or any drain which is connected with a public drain,

shall, if so required by notice in writing, signed by the Chairman or Vice-Chairman of the District Board or a Local Board, or by the District Engineer, cut down, prune or trim such plants, trees or hedges within the period, and in the manner, prescribed in such notice.

Damage to bridges, culverts or causeways on road.

5. (*1*) No person shall destroy or damage or cause to be destroyed or damaged, any bridge, culvert or causeway built on or across any road.

(*2*) No person shall erect any fence or other object on, or before or close to the opening of, any such bridge, culvert or causeway, for the purpose of fishing or for any other purpose, so as to impede the free flow of water thereunder, or so as to cause damage thereto.

(*3*) No person shall cast nets for fishing purposes from any parapet of any such bridge or culvert.

Damage to fences, posts, soil, turf or grass on road.

6. No person shall—

(*a*) destroy or damage, or cause to be destroyed or damaged, any fence or post erected on any road; or

(*b*) dig, scrape, uproot or remove any soil, turf or grass from any part of a road.

Channels across road.

7. (1) No person shall cut a channel, or convey water by a channel, across a road, except with the permission of the Chairman or Vice-Chairman of the District Board or a Local Board, or the District Engineer, and in such manner as he may prescribe.

(2) Any person who has been permitted by the Chairman or Vice-Chairman of the District Board or a Local Board, or by the District Engineer, to cut a channel across a road, shall, at the time prescribed by him, cover or refill the channel so as to restore the road to its former condition.

(3) Any person who has a prescriptive right to keep a channel open for carrying water across a road shall keep the channel in proper order, so as to prevent danger or inconvenience to the public.

Obstruction of waterway adjoining road.

8. No person shall obstruct any waterway adjoining a road, so as to injure or tend to injure the road or otherwise to render the road impassable.

Excavations on or near road.

9. (1) No person shall make any excavation on any road or any hole, pit, tank or well within fifteen feet of any road, without the permission of the Chairman or Vice-Chairman of the District Board or a Local Board, or the District Engineer.

(2) Every person by whom, or by whose direction, any hole, pit, tank or well has been excavated within fifteen feet of a road shall be bound to take such order therewith as will prevent damage to, or erosion of, the road.

Protection of excavations on or near road.

10. The owner or occupier of any tank, well or other excavation on or near the side of any road shall be bound to fence in or duly protect such excavation in such manner as may be directed by notice signed by the Chairman or Vice-Chairman of the District Board or a Local Board.

Use of roads, bridges, culverts or canals while closed to traffic.

11. No person shall pass over, or drive any animal or vehicle over, any road, bridge, culvert or canal, so as to injure the same while it is under construction or repair, or is affected by flood, or is otherwise rendered unfit for traffic and is closed to traffic under the orders of the Chairman of the District Board or a Local Board, or (in emergent cases, pending application to such Chairman) of the District Engineer, if a passage is given to the traffic, through another part of the road or otherwise.

Discharge of rainfall from roof to road.

12. No person shall, without the permission of the Chairman or Vice-Chairman of the District Board or a Local Board, or the District Engineer, allow the rainfall from the roof of any building owned or occupied by him to be discharged upon any road by means of any spout or other thing intended for the conveyance of water.

Flow of filth on to road.

13. No person shall allow the water of any privy or any matter offensive or deleterious to health to flow on any road.

Removal of trees or erections falling on to roads.

14. Any person owning or possessing a tree or a house, wall or other erection which has fallen, or part of which has fallen, on to a road, shall, if so required by notice in writing signed by the Chairman or Vice-Chairman of the District Board or a Local Board, or by the District Engineer, remove such tree, house, wall, erection or part, within the period prescribed in such notice.

Curing hides on or near road.

15. No person shall cure hides on or near any road.

Slaughter of animals, cleaning of carcases, etc., on or near road.

16. No person shall slaughter any animal, or clean any carcasses, or collect bones, on or near any road.

18. No person shall steep any jute, hemp, bamboos, hides or other offensive matter in any drain, borrow-pit or excavation at the side of any road.

Flying kite on road.

19. No person shall fly a kite on or over any road.

Rule of the road.

20. (1) Any person driving a vehicle along a road, and meeting another vehicle, shall keep on the left or near side of the road, so as to allow sufficient room for the other vehicle to pass.

(2) No person driving a vehicle along a road and overtaking another vehicle shall attempt to pass the latter vehicle otherwise than on the right or off side of the road.

Freedom of roads.

21. No person shall prevent any other person from passing along a road, or shall otherwise interrupt the free use of a road.

Care of animals on road.

22. (1) No person in charge of, or having control over, any animal used for riding or draught shall allow such animal to stand or wander on any road without a rider or driver.

(2) No person in charge of, or having control over, any cattle shall allow such cattle to stray or lie on any road so as to cause inconvenience or danger to any person travelling on the road.

(3) No person shall tether any cattle on, or within reach of, a road, or stall cattle or allow cattle to graze on a road.

23. Every person owning, riding, driving or in charge of any elephant or camel proceeding on a road must see that such elephant or camel is provided with a bell, and with a light also if such animal is proceeding on a road after nightfall.

Elephants and camels on road to have bell.

Taking elephants over road, embankment, bridge or culvert.

24. No person driving or in charge of an elephant shall—

(*a*) cause material injury to a road, or to an embankment vested in the District Board or a Local Board, by taking the elephant over the same; or

(*b*) take the elephant over a bridge or culvert vested in the District Board or a Local Board, unless the same be constructed of arched masonry.

Removal of elephants or camels from road to admit passage of horses.

25. Every driver of an elephant or a camel shall, on being so required by the rider or driver of a horse, remove such elephant or camel with reasonable promptitude to a sufficient distance from the road, to allow such horse to pass safely along the road.

Care of vehicles on road.

26. (*1*) No person shall drive or have in his charge on any road more than one vehicle at a time.

(*2*) No person in charge of, or having control over, any vehicle shall allow it to stand unattended on any road.

(*3*) No person shall leave a vehicle standing on a road for any longer time than is necessary for loading or unloading it.

(*4*) No person shall drive upon a road any vehicle laden with bamboos, planks or other materials of a similar character which exceed twelve feet in length and project beyond the vehicle, unless the vehicle be accompanied also by another person

(*5*) All owners and drivers of vehicles loaded with bricks or other materials shall be responsible for their being so secured that the contents thereof may not fall down on any road.

(*6*) If any vehicle breaks down on a road, the driver shall remove it to the edge of the road without delay, and shall, within a reasonable time, remove from the road all materials (if any) which have fallen from the vehicle, and shall place the vehicle in such a position that it will not obstruct traffic.

(*7*) No person shall lead or drive any vehicle up or down the slopes of any road, except at crossings fixed by the District Board.

Carrying bamboos or bullahs on cart on road.

27. No person shall carry bamboos or *bullahs* on a cart on any road in such a manner as to scrape the road, or to cause injury or annoyance, or risk of injury, to travellers thereon.

Width of tyres.

28. After the first day of September 1910, no bullock cart shall travel on any road unless the iron tyres of the wheels, or (in the case of carts not having iron tyres) the wooden rims of the wheels, are two inches or more in width :

Provided that this bye-law shall not apply to carts owned by residents of other districts which do not ordinarily ply within the district but merely pass through the district.

Separate tracks for cart traffic and carriage traffic.

29. From 1st June to 15th October where a road has *liks* which are impassable, springless vehicles drawn by cattle may be driven on any other part of the road. For the remainder of the year, in no circumstances shall such vehicle be driven save on the *lik*.

BYE-LAWS UNDER SECTIONS 139 AND 140 OF THE BENGAL LOCAL SELF-GOVERNMENT ACT OF 1885 (BENGAL ACT III OF 1885).

ADOPTED BY THE DISTRICT BOARD RESOLUTION No. 1 OF THE SPECIAL MEETING HELD ON 27TH JUNE 1910.

Definitions.

Definitions.

I of 1871.

1. In these bye-laws unless there is anything repugnant in the subject or context,—

(1) the word "cattle" has the same meaning as in the Cattle-trespass Act, 1871;

Bengal Act III of 1885.

(2) "reserve tank or well" means a tank or well which the District Board has set apart under section 90 of the Bengal Local Self-Government Act of 1885, by public notice, for the supply of water for drinking and for culinary purposes, and includes any reservoir, or part of any river, *khal* or other channel, so set apart; and a notice-board on the edge of a reserved tank or well, containing the words "reserved tank" or "reserved well," or words to that effect, shall be deemed to be sufficient notice for the purpose of this definition; and

(3) the "slopes" of a reserved tank or well include all places from which water can flow directly into such tank or well; and

(4) "road" means a road vested in, or under the control and administration of, the District Board or a Local Board; and includes—

(*a*) a village road;

(*b*) the slope, berm, borrow-pits and side-drains of a road; and

(*c*) all land vested in, or under the control and administration of, the District Board or a Local Board, and attached to a road.

Roads, Drains, Bridges Canals, and Embankments.

Encroachment or obstruction on a road.

2. (1) No person shall encroach on any part of a road by cultivating crops thereon.

(2) No person shall, on any road,

by means of any building, fence, pit, embankment or ditch or any other obstruction, or by means of any cut, drain or water-course intended for the purpose of drainage or irrigation, or by exposing thereon any goods for sale or by placing thereon any substance or material,—

(*a*) without the permission of the Chairman or Vice-Chairman of the District Board or a Local Board, or the District Engineer, make or cause any encroachment, or

(*b*) obstruct traffic, or

(*c*) cause any inconvenience to passengers, or

(*d*) hinder or impede the flow of water.

Sale, collecting or gathering of articles in vicinity of road.

3. No person shall expose or place any article for sale in any bazar or market in the vicinity of any road, or collect or gather any articles in the vicinity of a road, so as to interfere with the traffic of the road.

Cutting of plants, trees or hedges obstructing road or drain.

4. Any person in possession of, or having control over, any plants, trees or hedges which obstruct, overhang or overshadow any road, or any public drain or sluice, or any drain which is connected with a public drain,

shall, if so required by notice in writing, signed by the Chairman or Vice-Chairman of the District Board or a Local Board, or by the District Engineer, cut down, prune or trim such plants, trees or hedges, within the period, and in the manner, prescribed in such notice.

NOTICE TO TENDERERS.

(SEE A. R. I., VOL. III, PARAS. 135 AND 136.)

SEALED TENDERS for the supply of the undermentioned supplies from 1st November 1910 to 31st March 1911 will be received by the Superintendent, Remount Depôt, Calcutta, up to 4 P.M. on the 9th October 1910.

II.—Forms of "Tenders" and Schedules" (I. A. F. Z2120, 2121 and 2122) of the stores for the supply of which tenders are invited are obtainable on payment at the rate of Re. 1 per set on application in writing, and samples of the articles to be supplied can be inspected at the depôt godown any day (Sundays and holidays excepted) between the hours of 10 A.M. and 2 P.M.

III.—Tenders will only be received in accordance with the conditions on these printed forms, which must be submitted in English, and should specify in words as well as in figures the rate at which each description of article named in them will be delivered. Fractional parts of pies in rates will not be accepted. Tenders must be duly signed and completed in accordance with the instructions they contain.

IV.—Tenders should be accompanied by a deposit in the form of a $\frac{\text{Presidency Bank}}{\text{Treasury}}$ Receipt or Government Promissory Notes, Provincial or Municipal debentures, or Port Trust bonds, as earnest-money, at the rate of 2 per cent. on the total value of the stores tendered for, subject to a minimum of Rs. 25, which deposit will be returned on acceptance or rejection of the tender. In the case of Promissory Notes being furnished they must remain in the name of the depositor.

V.—No security or deposit which the tenderer may have furnished in connection with a previous contract or on any other account can be accepted as earnest-money.

VI.—The approval or rejection of tenders rests with the Quartermaster-General in India, who reserves to himself the right of rejecting any tender, or any items in a tender, without cause assigned. The lowest tender will not of necessity be accepted.

VII.—Tenders will be opened at this office at 12 noon on Monday, the 10th October 1910. Tenderers are invited to attend.

VIII.—Parties tendering are particularly requested to give their addresses in full.

IX.—Any further information required can be obtained on application to this office between the hours of 10 A.M. and 4 P.M. (Sundays and holidays excepted).

X.—Tenders must be sent under a strong cover, securely fastened, sealed with a distinctive device and conspicuously marked "Tender for the supply of grain" and addressed to the Superintendent, Calcutta Remount Depôt, Babugarh (District Meerut), and not to any officer by name.

XI.—Tenders which do not comply with the above conditions will be rejected.

CUSTOM HOUSE NOTICE.

Credit system for the payment of Salt duty.

UNDER this system, as explained in the rules appended hereto, the payment of duty on salt manufactured in, or imported into, or transported within Bengal may be postponed for any period not exceeding six months from the date on which such payment is due.

2. The advantage to the merchant is that in taking delivery of a consignment of salt from boardship or from bond, it will be open to him, instead of prepaying the amount of the duty into the Treasury, to execute a bond and to deposit Government Promissory Notes or the other securities specified in the rules of a sufficient value to secure the payment. He will have the advantage of drawing interest on the securities throughout the period for which they are deposited. At present he loses interest on the amount of the duty from the date of payment till the date of the sale of the salt. If any further particulars are required, the Accountant at the Custom House will furnish them on application.

CALCUTTA CUSTOM HOUSE, H. F. HOWARD,

The 11th December 1909. *Offg. Collector of Customs.*

NOTIFICATION

No. 338 S.R.—The 2nd April 1909.—In exercise of the power conferred by section 2 of the Indian Salt Duties Act, 1908 (X of 1908), the Lieutenant-Governor is pleased to make the following rules providing for the payment of duty on salt (manufactured in, or imported into, or transported within Bengal) within a period not exceeding six months from the date on which payment is due, and for the furnishing of security for such payment:—

Rules.

1. The payment of duty on salt manufactured in, or imported into, or transported within Bengal may, subject to the following rules, be postponed for any period not exceeding six months from the date on which such payment is due.

2. Any person who desires such postponement must deposit adequate security for such payment, and must execute an agreement in the form appended to these rules.

3. Such security shall take the form of—

(*a*) Government Promissory Notes,
(*b*) Treasury loan acknowledgments,
(*c*) Treasury Bills,
(*d*) Calcutta Port Trust Bonds,
(*e*) Calcutta Municipal Bonds,
(*f*) Government Savings Bank Pass-books, or
(*g*) Post Office Savings Bank deposits of the kind referred to in clause 42 in rule 333 of the rules contained in the Indian Postal Guide of April 1908,

which must be endorsed over to and deposited with the Collector of Customs, Calcutta, or a District Collector empowered by the Board of Revenue in this behalf.

4. (1) Whenever securities are so deposited, the Collector shall grant to the depositor a receipt therefor, showing the amount of duty and charges for which the depositor will receive credit in respect of such securities.

(2) The said amount shall be fixed according to the probable marketable value of the securities, after making such deduction as the Collector may think fit to meet the contingency of depreciation in such value during the currency of the credit.

5. The Collector shall open a credit account for the amount shown in the aforesaid receipt: provided that no account shall be opened for a less sum than Rs. 500.

6. (1) A depositor may have more than one credit account opened in his name at the same time, upon depositing separate securities and executing a separate agreement in respect of each account.

(2) Any deficit arising upon any such account may be realized from securities deposited on any other such account.

7. (1) Where a credit account is opened by the Collector of Customs, Calcutta, applications by the depositor for the clearance of salt must be made upon a Bill-of-Entry bearing the words "Credit Account" in red ink on its face, and the depositor must in all other respects conform to the Customs procedure for the time being in force in Calcutta.

(2) Where a credit account is opened by a District Collector, applications by the depositor for the clearance of salt must be made in the prescribed form, and the Collector shall then pass the necessary orders for the issue of the salt.

8. (1) All payments due upon credit accounts opened in Calcutta must be made to the Collector of Customs, Calcutta:

Provided that the Collector may permit any such payment to be made at any Treasury outside Calcutta.

(2) All payments due upon credit accounts opened in any district outside Calcutta must be made to the Collector of that district.

9. Any interest accruing on securities during the time they remain in the custody of the Collector shall be paid to the depositor on presentation of interest warrants.

10. (1) Each current account shall be adjusted at the expiration of a period of six months from the date on which the account is opened.

(2) Whenever an adjustment is made, the Collector shall either—

(*a*) allow the account to be continued and the balance thereof carried over, after requiring additional security to be deposited if necessary, or
(*b*) if he thinks fit, direct the account to be closed.

11. (1) If any depositor fails to pay upon demand the balance found to be due by him to the Government upon the final adjustment of his account, he may be charged with interest on such balance from the date on which the credit expired, at the rate of 12 per cent. per annum, and the Collector may proceed to realize the amount due for principal and interest by the sale of the depositor's securities or any of them.

(2) Any surplus accruing on such sale shall be paid to the depositor, and any loss consequent on the securities not realizing the sum due from the depositor for principal and interest must be met by him.

(3) For the purpose of making good any such loss, the Collector may credit to the Government any interest that may have accrued on any of the securities.

12. When an account opened in respect of any securities has been settled, such securities shall be returned to the depositor upon his presenting the receipt which the Collector granted therefor.

18. (1) A depositor may have an account closed at any time before the expiration of the period of six months referred to in rule 10, upon paying amount shown to be due by him.

(2) When such payment is made the securities shall be returned to the depositor upon his presenting the receipt which the Collector granted therefor.

FORM OF AGREEMENT.

AN Agreement made the day of one thousand nine hundred and between the Secretary of State for India in Council of the one part and of the other part. The said having fully endorsed and deposited with the Collector of Customs, Calcutta (*or* the Collector of) for the time being the securities hereinafter mentioned, that is to say, for securing the payment by him, the said , his executors, administrators or personal representatives, to the said Secretary of State, his successors or assigns, of all money which may at any time or times become due or owing from the said , his executors, administrators or personal representatives, to the Government of Bengal, on account of all duties, interest and other charges on salt removed from on credit under the rules regulating such credit (a copy whereof is hereunto annexed), or which shall at any time or times be at the debit of the said in his account or accounts current with the said Government in respect of such removals of salt on credit. It is hereby agreed between the said parties hereto, the said Secretary of State agreeing for himself, his successors and assignees, and the said for himself, his executors, administrators and personal representatives, that the said securities so deposited as aforesaid shall be subject and liable to all the provisions of the said rules and to such sale and appropriation of proceeds as therein provided and that any interest which shall accrue due on the said securities while they remain in deposit with the said Collector shall be paid to the depositors, when due, on presentation of interest-warrants, subject to the power of the Collector to retain such interest to meet any sum that may be due by the depositor on his credit account; and lastly that each of the said parties hereto shall adhere to the said rules and shall be bound thereby and by every stipulation and provision therein contained.

In witness whereof , Esquire, Collector of Customs, Calcutta (*or* Collector of the district) has by order of the Government of Bengal set his hand and the seal of his office hereto for and on behalf of the said Secretary of State and the said has hereunto set his hand the day and year first above written.

In the presence of — Signed by the said
In the presence of — Signed by the said

C. E. A. W. OLDHAM,
Secretary to the Government of Bengal.

Notice

IS hereby given that the undermentioned properties belonging to the Maksudpore Raj Estate under the Court of Wards will be put up for sale in the office of the Collector of Gaya on the 31st October 1910 and on any subsequent postponed dates at 1 P.M. The villages or shares will be sold either in lot or in fractions as convenient and the confirmation of the sale is subject to the final sanction of the Board. Intending purchasers should present themselves personally or through duly authorised agents on the date fixed, or they may send their offers in sealed covers to the Collector of Gaya at least one week before the date of sale. One-fourth of the purchase-money should be paid at the time of sale and the remaining three-fourths within 15 days of the sale. In case of the purchasers failing to pay the balance within due date, the one-fourth earnest-money will be forfeited and the property resold at the earliest convenient date at the risk of the purchasers concerned in the same way as if the village were sold for arrears of land revenue under Act XI of 1859. The Collector reserves the power to postpone the sale of any village indefinitely, or not to sell it at all if adequate offers are not received or for any other reason.

N.B.—(*a*) The figures in the following list are not guaranteed to be correct, but an endeavour has been made to furnish correct figures as far as practicable.

(*b*) The income of the properties is believed to be capable of improvement by good management.

(*c*) The sales are intended to pay off the prior debts and mortgages on the estate.

For any further particulars apply to the Manager of the estate at his office in Gaya.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,

or

the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

INDIA, WEST—SIND COAST.

Karachi harbour—Information with regard to Pilots.

No. 397 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1161 of 1910), are republished:—

Position.—Manora lighthouse, lat. 24° 47½′ N., long. 66° 58¼′ E.
Details.—Masters of vessels are advised that the best position in which to await the Pilot, during the S.W. monsoon, is with Manora lighthouse bearing N.E., distant about 2 miles. On no account should the lighthouse be brought to bear anything westward of North owing to the heavy rollers and swell on the edge of the flats.

Pilots will always be sent off as quickly as possible, but occasional delay must be expected in thick weather owing to the difficulty of sighting vessels from the Look-out station until they are close in.

Publication.—West Coast of India Pilot, 1909, page 334.
Authority.—Marine Survey of India, 19th July 1910.

FORMOSA, EAST COAST.

PRELIMINARY FORECAST OF THE BHADOI CROPS OF BENGAL, 1910.

[On an average of the five years ending 1908-09, the area under autumn rice in the territory to which this forecast relates has represented some 6·0 per cent. of the total area under this crop in British India.]

Explanatory.—The most important of the *bhadoi* crops is autumn rice. It occupies about 50 per cent. of the total area under *bhadoi* crops. Millets and maize are cultivated chiefly in Bihar and Chota Nagpur.

Character of the season.—The rainfall was scanty in March and April. May was showery, but the fall was defective in most districts. Sowings began in normal time, but want of moisture was felt in the sowing season. Rainfall was sufficient later on and favourable weather conditions prevailed. At the end of July and beginning of August there was excessive rain and floods in North Bihar, and later on in other districts of Bihar, and the crops were seriously damaged in Darbhanga and parts of Champaran and Muzaffarpur. A certain amount of injury was also caused

by floods in other districts of Bihar and in Cuttack, Angul and Puri. The weather conditions have been favourable up to date in Chota Nagpur.

Area sown.—The area sown this year with different *bhadoi* crops is reported to be 9,248,600 acres against 9,619,400 acres of last year. The normal area under the crops now stands at 9,564,400 acres. The decrease in the area sown is attributed to want of sufficient moisture at the sowing season.

Outturn.—From the Appendix attached to this note, it will be seen that five districts, viz., Burdwan, Birbhum, Khulna, Sonthal Parganas and Ranchi, report a normal crop. Saran, Sambalpur, Hazaribagh, Palamau and Manbhum report a crop between 90 and 99 per cent. Midnapore, Gaya, Bhagalpur, Balasore, Puri and Singhbhum report a crop between 80 to 89 per cent. Nine districts show an outturn between 70 and 79 per cent., and four districts (Bankura, Champaran, Muzaffarpur and Purnea) a crop between 60 to 69 per cent. Patna expects 53 per cent., Murshidabad 46 per cent., Darbhanga 49 per cent. and Monghyr 42 per cent.

According to the estimates of the District Officers the outturn of the crops for the Province as a whole comes to 78 per cent. The damage caused by floods in some districts has been exaggerated, and I estimate the total outturn will not be less than 90 per cent. of the normal.

Offg. Director of Agriculture, Bengal.

Insufficient rainfall at the sowing season affected the growth of the crops. The condition of the crops is generally fair except that of autumn rice, which is poor in the Barasat subdivision. The date of sowing was normal everywhere except in the Diamond Harbour and Barrackpore subdivisions, where it was late. The crops are expected to be worse than that of last year. The increase in the area sown under rice crop is due to the cultivation of paddy in jute area in the Sadar subdivision and also to uncultivated lands being brought under cultivation. The decrease in the estimated area under "other bhadoi cereals and pulses" in the Sadar and Diamond Harbour subdivisions is due to unfavourable weather conditions.

Saran ...	1,711,286	1,367,200	Autumn rice	66,400	64,500	58,100	71	90	...		...	End of June.	The weather and rainfall conditions have been favourable. The condition of the crops is good. The date of sowing was normal. The crops are expected to be somewhat better than that of last year. The increase in the area sown under "Other *bhadoi* non-food crops" is due to timely and early rainfall. The figures of last year seem far too low, and can hardly have been carefully examined. The general impression here seems to be that the crops are not quite normal. They are very good in places and have suffered from floods in other places.

The weather and rainfall conditions were favourable at the outset, but heavy rainfall and consequent floods later on damaged the crops on low lands and riparian tracts. The condition of the crops is good in places where no damage has been done by floods. The date of sowing was normal. The crops are expected to be worse than that of last year and are below the normal. The decrease in the area sown is due to heavy rainfall which is detrimental to *bhadoi* crops, but favourable to *aghani* paddy, hence the cultivators have reserved some areas which are usually put under *bhadoi* crops for *aghani* paddy.

With the advent of rain, sowings were pushed on vigorously, but unfortunately there was continuous and heavy rainfall in July which submerged the transplanted paddy on low lands and utterly destroyed it. There was a break in the rains in the end of July, when retransplantation had to be done. The weather has been, on the whole, not favourable. The condition of the crops is fair. The decrease in the area sown is due to unseasonable and heavy rainfall.

DEPARTMENT OF AGRICULTURE, BENGAL.

FINAL FORECAST OF THE JUTE CROP, 1910.

(On an average of five years ending 1908-09, the area under jute to which the Bengal Jute Forecast relates has represented 20 5 per cent. of the total area under jute in British India.)

Acreage.—The final district returns show an area under jute of 475,600 acres as compared with 587,100 given in the preliminary forecast. The reason for the discrepancy is that the District Officer of Purnea has not accepted the figures of the preliminary forecast, but has estimated the acreage of his district at 121,000, while the Collector of Hooghly has reduced his original estimate by 3,100 acres and the Collector of Midnapore has raised his estimate by 700 acres. After further local enquiry, I have retained my preliminary estimate for both Purnea and Hooghly, viz., 230,000 and 52,000 acres. Special enquiries made in Jessore and Nadia indicate that the acreage in these districts has been underestimated; but pending fuller investigation, I have given the District Officers' figures. I now estimate the total area of jute in this Province and Cooch Behar to be 587,800 acres.

The acreage for each of the five years, 1906-1910, is shown below:—

YEAR.			Acreage.
1906	...	...	780,400
1907	...	...	931,200
1908	...	...	548,700
1909	...	...	555,400 (revised).
1910	...	...	573,800

The area under jute this year in Cooch Behar State, which is not included in the above figures, is estimated at 14,000 acres against 20,000 acres last year.

Weather conditions.—As explained in the preliminary forecast, rainfall during the sowing time in each of the important jute-growing localities was short. In March Purnea was the only district which received a normal amount, and in April and May the rainfall was generally deficient, except in Nadia and Jessore. Sowings, though begun at the normal time, were prolonged to a late season in many parts. The weather conditions in June and July were on the whole not unfavourable, but considerable damage was done by excessive rain and floods in parts of Purnea, Jessore, Nadia, Murshidabad, Darjeeling and the Sonthal Parganas. Rainfall in August was below the normal except in Nadia and Murshidabad; but this rather improved the growth of the crop in the neighbourhood of Calcutta. In Nadia some damage was done by insects.

Outturn.—In Purnea, which is the most important jute-growing district in this province, the District Officer estimates the crop at 59 per cent. of the mormal. In Hooghly and the 24-Parganas, the only other districts which possess areas of over 50,000 acres under jute, the outturn is estimated at 87 per cent. and 96 per cent., respectively. The crop in Purnea has certainly suffered considerably though not, I think, so much as the Collector estimates, while the

crop in the neighbourhood of Calcutta is above normal. The other districts for which the district returns show an underestimate of outturn are Nadia, Jessore, Khulna, Darjeeling and Cuttack. According to the District Officers' estimates the total outturn of the province including Cooch Behar comes to 72 per cent. of a normal yield. Special enquiries by officers of the Department have been made during August and September in all the jute-growing districts, and, after full consideration, I raise the estimate of outturn per acre to 82 per cent. of a normal crop. On this calculation the total outturn of the Province comes to 1,446,000 bales.

From the reports of the District Officers it appears that the amount of last year's crop held over in the districts is not large. It may be roughly estimated at half a lakh of bales.

Consolidated Forecast.—The Director of Agriculture of Eastern Bengal and Assam estimates the area under jute in his province to be 2,350,000 acres and the outturn to be 6,486,000 bales or 92 per cent. of a normal crop. The total acreage for the two provinces is therefore 2,937,800 acres and the total outturn 7,932,000 bales, or 90 per cent. of the normal.

The statistics of last year for Nepal, Upper India and Madras are given below:—

Nepal	69,884 bales.
Upper India *viâ* East Indian Railway ...	11,264 „
Madras *viâ* Bengal Nagpur Railway ...	154 „

The total crop of last year, according to trade statistics kindly supplied by the Secretary to the Bengal Chamber of Commerce, amouted to 8,864,792 bales. The estimate of the departments, including the above figures for Nepal etc., amounted to 7,287,886 bales. The great discrepancy is due to underestimates in the figures for area and outturn furnished by the District Officers.

A joint note by the two Directors is attached.

W. H. BUCHAN,
Offg. Director of Agriculture, Bengal.

CALCUTTA,
The 21st September 1910.

CONSOLIDATED FINAL FORECAST OF THE JUTE CROP, 1910.

Acreage.—The area under jute is now estimated at 2,937,800 acres, an increase of 37,800 acres over the figures of the preliminary forecast.

The acreage fer each of the five years, 1906 to 1910, including the figures for Cooch Behar, is shown below:—

Year.		Acreage.
1906	... ...	3,482,900
1907	... ...	3,974,300
1908	... ...	2,856,700
1909	... ...	2,876,600
1910	... ...	2,937,800

The increase this year is principally due to the fact that the acreage was considerably under-estimated in the district returns of last year.

Wheather conditions.—The early part of the season was dry and sowing was delayed. Conditions improved as the season advanced, and from May onwards copious showers fell in the more important districts. In June and July the rainfall was, if anything, excessive, and towards the end of July floods made their appearance in many districts and caused appreciable damage in the low-lying tracts, especially in Faridpore, Jalpaiguri, Patna, parts of Mymensingh and Dacca, Purnea, Nadia, Murshidabad and Jessore. There has, however, been a tendency to exaggerate the damage done, as the crop generally was well grown before the floods attained serious proportions.

Outturn.—Thirteen districts have an area of over 50,000 acres under jute. According to the reports of the District Officers, the percentage outturn for both the provinces works out to 76 per cent. of a normal crop. After extensive enquiries in all the important districts, made both personally and by means of officers of the Departments, the Directors have raised the estimate of outturn to 90 per cent. On this calculation the outturn from 2,937,800 acres comes to 7,932,000 bales.

Special reports from the districts show that the stocks of jute remaining over from last year are greater than what was at first supposed. A fair estimate of these stocks throughout the provinces would be some 300,000 bales. This, added to the figure for outturn, brings the available jute up to 8,232,000 bales.

A factor which has hitherto been neglected in making jute forecasts is the practice, prevailing in many marts, of watering jute before export. The amount of water added has been estimated to vary from *nil* in many marts to 5, 10 and even 15 per cent. in others. There is very little water in jute exported from India in *pucca* bales, but it is an admitted fact that a large percentage of the jute imported in *kutcha* bales by the Calcutta mills is heavily watered before it leaves the marts. Enquiries which have been made on the subject lead the Directors to think that an average of 5 per cent. may safely be added for watering. It may be argued that the business of the Directors of Agriculture is to make an estimate of the actual corp; but, as the figures

for jute published in the trade returns undoubtedly include water deliberately added, it is only fair that allowance for this practice should be made by the Directors in framing their estimates. On the basis of 5 per cent. an addition of 396,600 bales must be made to the figures already quoted, which brings the total of the jute available up to 8,628,600 bales.

Satistics of last year for Nepal, Upper India and Madras are given below:—

Nepal	69,884 bales.
Upper India *via* East Indian Railway	11,264 „
Madras *via* Bengal-Nagpur Railway ...	154 „

The total crop of last year, according to satistics kindly supplied by the Secretary, Bengal Chamber of Commerce, amounted to 8,864,792 bales. The estimate of the Departments of Agriculture, including the above figure for Nepal, etc., amounted to 7,287,586 bales. The great discrepancy is due to under-estimates in the figures both for area and outturn furnished by the District Officers. It should however be remembered that the area under jute has been cadastrally surveyed in only one of the important districts, and that the only agency for collecting figures is the subordinate police staff.

The weather conditions were favourable. The general prospects of the crop were good. The increase in area and outturn is due to favourable weather and a full crop and one better than that of last year is expected.

The rains were late in commencing and the total rainfall up to date is considerably short of the normal; but the rain that was received was fairly distributed. The area sown is normal. Last year's outturn was probably under-estimated. An attempt has been made to frame a more accurate estimate this year. The actual outturn is probably not better than last year though the recorded percentage is higher.

Burdwan—*concld.*	Hooghly ...	760,715	445,900	53,400	(a)53,000	78	87	Nil	Not cadastrally surveyed			September.	At the sowing time the weather and rainfall were not favourable in the Serampore and in parts of the Sadar subdivisions. Elsewhere they were favourable.	
	Howrah ...	326,400	250,000	36,600	33,800	56	100	No jute remaining at the Sadar subdivision and very little in the Uluberia subdivision.	...	...	...	Beginning of August.	There was insufficient rain at sowing time, but subsequently rainfall has been favourable. The crop is a normal one.	
	24-Parganas ...	3,100,533	1,088,700	80,000	80,000	100	96	Very little	...	...	...	Middle of August.	Weather conditions were favourable in the subdivision of Basirhat where the crop is principally grown. In other subdivisions rainfall was insufficient at the sowing season but subsequently there was sufficient rain almost everywhere. General prospect of the crop is fair. The decrease, in outturn, as compared with the last year's crop is partly due to the fact that in some parts of the Basirhat subdivision plants which had germinated afterwards withered away on account, it is reported, of old seeds being used and partly due to insufficient rain at the time of sowing.	

PRESIDENCY.	Nadia ...	1,788,015	1,048,800	38,100	35,000	77	54	Little ...	Not cadastrally surveyed.			August ...	The weather was generally favourable. General prospect of the crop is fair. The decrease in the area sown is due to the prevailing low prices of jute and want of seeds. The crop has been partly damaged by insects in the Chuadanga and Meherpur subdivisions and by flood in the Kushtea subdivision. Hence the decrease in the outturn as compared with that of the last year. The sowing was late in the Sadar subdivision.
	Murshidabad	1,371,520	955,500	15,800	27,700	72	75	None ...	...	...	...	...	The weather conditions were favourable. The prospects of the crop are good. The increase in the area and outturn is due to timely rainfall.
	Jessore ...	1,872,153	1,191,000	48,700	48,000	75	60	Little ...	...	...	...	August ...	The weather conditions were not favourable. General prospects are not good. The falling off in area sown is insignificant and calls for no explanation. The low outturn is due to the flood which has caused damage to the jute plants of the Narail, Magura and Jhenidah subdivisions.
	Khulna ...	3,049,016	570,000	16,200	16,400	93	93	Little .	177,900	1903-04 to 1909-10.	16,177	End of July.	The weather was favourable. The general prospects of the crop are fair. The increase in the area sown this year is due to favourable weather. The crop this year appears to be normal and the same as that of last year.
TIRHUT ... The weather conditions were favourable. The general prospects are good. The decrease in area is due to the fall in price.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; d, drizzling rain; p, passing showers; g, gloomy; t, thunder; l, lightning; K, thunderstorm.
